Synagro to Highlight Services at Residuals and Biosolids 2018 Conference

Company Will Sponsor Friends of Biosolids Reception and Host an Unexpected R&B Evening

Synagro's Layne Baroldi to Present Multiple Technical Program Sessions

BALTIMORE, Maryland, May 8, 2018 – [Synagro Technologies, Inc.](http://www.synagro.com), the preeminent provider of biosolids and residuals solutions services in the United States, is pleased to announce its participation in the Residuals and Biosolids (R&B) 2018 Conference in Phoenix, Arizona, May 15 to 18, 2018, at the Phoenix Convention Center.

Join us inside the Phoenix Convention Center at Booth 606 to learn about the many ways Synagro can assist you with biosolids and organic feedstocks management. From thermal drying and energy generation to digester cleaning, when it comes to biosolids, our mission is to be the most trusted provider of resource recovery solutions. We help our customers identify their needs and the solutions that are best tailored to most economically address those needs.

“We are looking forward to be exhibiting at the R&B 2018 conference in Phoenix, and to be showcasing all of our services,” announced Pam Racey, vice president of project development, Synagro. “We’re equally excited to join in sponsoring the Friends of Biosolids reception and we’ve also got something different, and let’s just say unexpected, planned for our customers and prospects on Wednesday night at a nearby art gallery.”

Synagro representatives urge conference attendees who may not have already received an invitation to its Unexpected R&B Evening to stop by Booth 606 to pick theirs up before room runs out.

“I am pleased to be participating in two sessions within the technical program,” said Layne Baroldi, vice president, Government Affairs & Technical Services, Synagro. “First, on Thursday, May 17 during Session 9, Regulatory Changes and Impact to Biosolids Management, from 9:00 to 9:30 a.m., will be “Protecting Beneficial Use – Current Legal Issues Regarding Land Application,” which I will present along with James Slaughter, trial lawyer and environmental litigator, Beveridge & Diamond, P.C. The same day from 9:30 to 10:00 a.m., I’ll be discussing Key Ingredients of a Successful Biosolids P3” as a part of “P3 Partnerships in Biosolids: Why P3 Makes Sense to Balance Risks and Costs in Biosolids Management” within Session 10.”

About Synagro

Founded in 1986, Synagro Technologies, Inc. provides environmentally sustainable solutions for commercial and municipal organizations that generate organic by-products. Synagro consistently transforms industrial and municipal waste into environmentally friendly resources that benefit our communities. As the largest recycler of organic by-products in North America, Synagro uses best-in-class processes, from beneficial reuse to renewable energy, that adhere to the strictest of environmental regulations to provide compelling solutions for communities across the continent. Serving more than 600 municipal and industrial water and wastewater facilities in the United States and Canada, Synagro's leading systems of organic by-product management services support municipalities of all sizes in saving money and meeting environmental regulations.
