Veeam and Learn on Demand Systems Announce Partnership

Date: May 14, 2018

The leader in Data Availability and the leader in hands-on learning environments announce partnership.

Chicago, Illinois: May 14, 2018: –Learn on Demand Systems, the global leader in hands-on learning environments, today announces a partnership with Veeam® Software the Availability for the Always-On Enterprise innovator. Effective immediately, Learn on Demand Systems will be the official lab provider for Veeam's technical certification program, Veeam Certified Engineer (VMCE).

"We are excited to be able to offer our Veeam Authorized Education Centers and students the scalability and reliability of what Learn on Demand Systems brings to the table," said Rachel Tuller, lead for the VMCE program in the Americas for Veeam. "They are passionate about increasing productivity, reducing operating costs and ensuring security is always top of mind, and that resonates in today's market."

Prior to this announcement, there was no official lab provider. The change eliminates high costs for self-hosting and allows VMCE trainers flexibility as lab scheduling is not required with Learn on Demand Systems.

"Veeam, like Learn on Demand Systems, is an industry leader and we are thrilled to partner with them to deliver Hands-on labs for the VMCE program," said Corey Hynes, CEO of Learn on Demand Systems. "Through the Learn on Demand Systems platforms Veeam and its VMCE partners can increase the effectiveness of their training deliveries, train more customers, and ultimately improve adoption."

This announcement comes during VeeamON, Veeam's flagship conference boasting more than 2,000 on-site attendees. Kicking off the partnership, Learn on Demand Systems is on-site as the hands-on lab provider for the VMCE training.

About Veeam Software
