**iPatientCare is set to participate in HIMSS19 to demonstrate its cloud-based EHR 18.0, ONC-ACB Certified 2015 Edition along with the Practice Management System and Revenue Cycle Management services**

**iPatientCare, one of the first ConCert by HIMSS certified Ambulatory EHR, and recognized healthcare IT industry leader is prepared to demonstrate its' 2015 ONC Health IT Certified EHR at HIMSS19 at Exhibit Hall booth # 2975**

**Old Bridge, NJ,** January 10, 2019 - iPatientCare, being a pioneer in cloud-based ambulatory EHR and Revenue Cycle Management services, announces its participation in HIMSS19 at Exhibit Hall booth # 2975. iPatientCare partners with small and multiple practices, rural health clinics, and community qualified health centers (CHC/FQHC) to reduce their A/R days and improving collection rates, reducing billing costs, with the help of state of art and certified technology solutions.

The HIMSS Annual Conference & Exhibition, 2019 will commence from February 11 Through 15 2019, in Orlando, Florida. As every foregoing year, the conference will give opportunities to build a strong network and connect with various industry leaders and other health IT professionals present at the event. The educational sessions will focus on revenue cycle management, electronic health records (clinical documentation and quality outcomes), telemedicine solutions, and interoperability-system integration.

iPatientCare has been recognized by HIMSS as the first recipient of the ConCert and one of the Health IT industry Leader at IHE NA Connectathon in recent HIMSS conference. This year too, iPatientCare will present its unique features, healthcare IT solutions, and commit on a higher scale to satisfy expectation from industry professionals.

"iPatientCare always comes out with new and innovative products and services for patient engagement, population health management (delivery & coordination), telemedicine, technology-enabled revenue cycle services, and many more. We look forward to showcasing these products and develop long business partnerships at HIMSS19", said Udayan Mandavia, President/CEO, iPatientCare.

iPatientCare looks forward to meeting with other technology leaders, innovators and attendees from across the globe at Exhibit Hall booth # 2975.

**About iPatientCare:**

Based at Old Bridge, New Jersey, iPatientCare is a private-held Corporation that is nationally recognized as one of the leading companies providing EHR and integrated MACRA-ready solutions and intelligent medical billing and revenue cycle enhancement services to physician offices providing primary and specialty care, rural health clinics, and community/federally qualified health centers (CHC/FQHC) nationwide.

At iPatientCare, we help healthcare providers to dramatically reduce A/R days and improve collections rates, reduce billing costs, eliminate the burden of repeatable, high volume work on their internal teams, and plug gaps in staffing and internal bandwidth. Our expert teams are comprised of senior executives with extensive experience in clinically-driven revenue cycle management systems including certified billers and coders with managerial capabilities to facilitate client interactions, escalations and SLA. We also provide a dedicated account manager and a team of talented experts assigned to work as an extension of your office, instead of operating as an outsourced billing company or technology vendor.

iPatientCare EHR 18.0 has received 2015 Edition ONC Health IT certification by Drummond Group, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS). Full certification details can be found at ONC Certified Health IT Product List. If desired, we make the difficult tasks of revenue cycle optimization and MACRA/PCMH/QR reporting easier by bundling innovative EHR and other cloud-based practice solutions as part of our revenue cycle management and MACRA consulting services at no additional costs.

As part of its MACRA-ready solutions, iPatientCare has been recognized as a qualified MACRA-MIPS registry for the year 2018 by CMS, and has a distinguished credit of being selected as a preferred EHR vendor and medical/chiropractic billing company by more than 70,000 users nationwide, numerous hospitals/health systems, federally funded regional extension centers, and in the past by the US Army and NASA Space Medicine.
