Zro+ Selected To Appear on Award Winning Television series- Modern Living with kathy ireland®
Zero+ Nutraceutical and its CO-Founder Bob Mordini will be a featured guest on Modern Living with kathy ireland®, filming on December 10, 2018.
The feature story will be broadcast globally on WE tv (as sponsored programming) and Bloomberg Worldwide a few weeks after the live taping.

“It is very exciting to have our products recognized by Modern Living with kathy ireland®,” says Mordini. “Our products are a great natural remedy for pain, stress, focus, sleeplessness, and anxiety. Kathy’s great influence across the world will help the millions of people who watch her show become aware and choose a credible product, which works very quickly and naturally.”

“We are very pleased to feature Zro+ on our show,” added Gila Stern, Vice President of Brand Strategy for Modern Living with kathy ireland®. “Bob and his team have developed products to address many ailments, in a natural and effective way. We look forward to sharing his story with our global audience.” Rachel M. Ragsdale, LPC, BCN NeurOptimize - Founder and CEO will be joining Mr. Mordini on the show. Her company provides cutting edge brain mapping and qEEG analytics which provides empirical data, yet another differentiator that Zro+ brings to the forefront.

Zro+ topical products have been a hit for reducing pain in all walks of life. It is a great natural alternative to many forms of pain control and is safe for everyone, from children to seniors. With the carefully tested natural ingredients, it is a viable treatment for pro athletes, students, and business professionals. Available now., Zro+ is proud to present an enhanced new taste in their Zro+ sublingual line of products, a sublingual solution made with the same exacting standards as the original topical formula that focuses on increasing brain processing speed, focus, sleep and reducing anxiety. Yes, we really can increase brain processing performance, as Rachel can confirm.

The Zro+ products have been very popular to families and individuals because they have encountered outstanding results, but previously required medications for Pain, Anxiety, ADHD, Brain Processing Speed, and Focus. Zro+ products are an effective alternative to many prescription medications for the aforementioned and more. Zro+ has demonstrated outstanding results via qEEG/Brain mapping studies showing benefits very quickly, says Mordini.

Mordini adds, Thanks to all who have shared their success stories with us on the website, it’s very fulfilling for all of us to be able to help so many!
