KARMA
PAYMENTS

Accept Donations Anytime, Anywhere

Contactless technology makes giving clean and easy. Karma Payments, in collaboration with Visa, makes donations safe, secure, and simple. Inspire cashless, convenient, and compassionate offerings...anytime, anywhere.

- Easily accept donations from Apple Pay, Google Pay, Samsung Pay, plus Visa and Mastercard credit and debit cards, American Express, and Discover with a self-serve, digital collection device.
- We custom-make complimentary online donation pages for every organization.
- Credit card donation kiosks are renewed offering baskets; multimedia displays engage donors, with or without an attendant.
- Empower a clean, healthy environment. No hand-to-hand contact with people, currency, or traditional card terminals required.
- Karma Payments provides impeccable customer support, 24/7.

Brand Awareness and Outreach

Contactless payment solutions allow donors to give with more peace of mind, convenience, and security than traditional cash contributors. All transactions are fully encrypted at the time of donation, eliminating the risk of fraud and theft.

- Instant Karma is small, lightweight, weatherproof, and easy to use; no login or need to pair with other devices. It can be administered remotely online; no attendant needed.
- The device may be logo branded, vinyl-wrapped, and integrated into an existing cash donation box in any holy place, temple, sanctuary, cathedral, mosque, shrine, chapel, synagogue, or house of worship.
- Our leading edge technology seamlessly integrates with an organization's operations and website.
- We consult and assist religious leaders to improve online search engine optimization, readability, layout, functionality, and attractive presentation.
- Instant Karma may be purchased, leased monthly, or rented for one-time events.

Leveraging Analytics for Greater Giving

Karma Payments develops content tailored specifically for each organization. We provide a simple plug and play framework — responsive and optimized for mobile phones, tablets, and PCs — that engages both young and mature donors alike.

- Powerful tools strategically manage donations and donor databases.
- Instant Karma devices are controlled through a centralized, web-based platform, and provide instantaneous statistics on every donation, including first and last name of donor.
- Intuitive software tracks data from all locations, multiple events, weekly/monthly/annual donations totals, and other initiatives in real-time.
- Religious leaders can forecast giving cycles and identify donors with our comprehensive engagement software.
- Reports may be generated based on transaction time period, site, device identifier, donor information, and dollar amount.
