

Leopard Solutions' suite of products is designed to fulfill a wide variety of business needs – from market research to business and competitive intelligence for growth and development. We believe in connecting, telling the most complete and accurate narrative of the in-house legal department, the law firm, and attorney with innovative and intuitive products.

With our family of products, your firm can measure, forecast, and assess the strengths and weaknesses of the market for financial success.

**Leopard In-House.** Corporate counsel directory consisting of over 70,000 attorneys including corporate executive groups to connect you to the people who can say yes to your services.

**Leopard Firmscape.** Market research and curated reports on top U.S. and international law firms with the unique ability to drill down to the attorney level for a full 360°-overview of any firm.

**Leopard List.** The only attorney database updated weekly by our proprietary algorithm and team of data experts. It is designed to serve the needs of business development, sales, marketing, and talent acquisition.

**Leopard Job Search.** Job market data for business development, research, and competitive intelligence. Monitor the competition and how they are growing.

## TARGET AND CONNECT USING DATA

The building blocks of business development and marketing is great data.

Understand the real competition and know what you're up against.

- Uncover new competition based on office locations, size, practice area, and market share
- Recognize pain points and monitor the growth and decline of individual firms, practice areas, or the market at large
- Benchmark your firm and keep track of emerging opportunities with built-in tools
- Find merger and/or acquisition targets for expansion and increased market share

Powerful data solutions for modern law firms and legal professionals

The most robust and in-depth law firm data for business development and legal marketing.
