Paramount WorkPlace Launches New Travel Management Solution

WorkPlace Travel joins the company's suite of procurement, AP automation, expense, and time management applications to form a comprehensive spend management solution for midmarket and enterprise organizations.

Detroit, MI — May 18, 2020 — Paramount WorkPlace, a leading software developer and provider of web-based and mobile spend management software solutions, today announced the upcoming launch of WorkPlace Travel, a cost-effective, powerful, and easy-to-use travel management solution for midmarket and enterprise organizations. Paramount WorkPlace Procurement, OCR and AP Invoice Automation, Expense, and Project TimeSheet management applications are already transforming spend management for thousands of users globally. With the addition of WorkPlace Travel, the company's offering is the most complete, comprehensive, and affordable available to companies in the SMB and enterprise spaces.

Salim Khalife, President and CEO of Paramount WorkPlace, said, "With business travel slowing due to coronavirus, it's more important than ever for companies to strategically plan, approve, book, and account for every trip. Looking forward, as corporate travel inevitably returns to more normal levels, companies need to be ready with tools that facilitate compliant and cost-effective trip planning. Very few (if any) spend management applications for the midmarket combine the extensive functionality and competitive price point that Paramount WorkPlace does, making our offering a clear choice for savvy organizations that are seeking to improve their entire procure-to-pay process."

WorkPlace Travel combines an easy-to-navigate user interface that makes it simple for employees to shop for and manage trips with a robust approval engine that ensures travel requests are within corporate thresholds.

WorkPlace Travel eliminates paperwork and simplifies business travel by allowing employees to easily shop for travel from their mobile devices, seek approvals, book travel according to corporate policies and limits, and then effortlessly transfer the trip data into their expense reports. WorkPlace Travel supports guided, data-based corporate travel decisions by providing employers with full visibility into travel activities, full control of booking parameters, and actionable insight into corporate travel spending. Combined with the integration into the Paramount WorkPlace expense management solution, the entire process is efficient, cost-effective, and auditable.

WorkPlace Travel will be available beginning June 26, 2020. For additional information visit paramountworkplace.com/travel-management.
