Our Portfolio for a Safer Workplace

Clarion Safety Systems offers leading-edge workplace safety products and services that can help protect employees, subcontractors and guests and minimize your organization's liability exposure. Work with us to create safety signs, labels and tags for your facility that are up-to-date with the standards you aim to meet, like OSHA, as well as ANSI/ISO best practices – for a safer, more productive work environment.

No matter where your workplace is in the development of its safety management system or identification of gaps in safety, we're a hands-on partner to meet your needs. We offer thousands of quality, instock products made in the USA in our state-of-the-art production facility in Milford, PA and unlimited customization, as well as safety and risk-related services.

“With over 15,000 clients in more than 50 countries, zero have had warnings-based allegations brought against them.”

Why Clarion Safety?

Clarion Safety's signs, labels and tags embody best practice design principles defined by the latest industry standards, standards we helped to write. For nearly 30 years, we've led the initiatives that have kept the ANSI, ISO, OSHA and NFPA safety sign standards up-to-date with modern-day risk assessment methodologies. Working directly with our clients, we create systems of visual safety that effectively communicate specific safety requirements – helping to reduce risk and protect people.

Distinctive Competence That's Proven Effective

Expertise: Our best practice products have proven effectiveness. With 15,000+ clients and nearly 100 million labels and signs in use, zero Clarion Safety customers have had “failure to warn” or “inadequate warnings” allegations brought against them.

Guidance: We focus on a hands-on approach to guide customers to safety label and sign choices in line with their needs AND the latest standards. 100% of our customer service team is “Clarion Essentials” certified, a proprietary, standards-based education curriculum.

Service: We've perfected a design and ordering process that's fast, easy and precise, so that we deliver when you want AND we get it right: 99.5% of our orders are delivered on-time, and they're received with 99.1% satisfaction.

Partnership: We specialize in helping customers get up-to-date – and stay there. We're committed to being your partner in safety by offering free safety label and sign assessments.
