Call for Nominations Open for 2020 Excellence in Safety Award® *Recognizing Innovation, Dedication, and Best Practices Across Heavy-Duty Industries*

Boise, Idaho – March 4, 2021 – PRECO Electronics®, a [Sensata Technologies](#) company, is now accepting nominations for the tenth annual [Excellence in Safety Award](#). Recognizing the achievements of safety professionals each year, the Excellence in Safety Award honors those who take action to educate others and improve safety on and off the job.

"As a global leader in safety technology, we established the Excellence in Safety Award to celebrate leaders across the industries we serve for their initiative and commitment to the advancement of safety within their community, business, or industry," said [Jim Bean](#), General Manager of PRECO Electronics. "Through the Excellence in Safety Award, we recognize leaders across the industry for their initiative, tenacity, and vision in an area we proudly represent, support, and continuously strive to improve."

Since its inception, the Excellence in Safety Award has recognized and honored safety professionals and leaders who have contributed significantly to the development of successful safety programs and education across the medium and heavy-duty industries.

Past recipients of the Excellence in Safety Award include:

- David Biderman, Executive Director and CEO of [SWANA \(Solid Waste Association of North America\)](#)
- Kim Hodges, Fleet Maintenance and Repair Specialist at [Montana-Dakota Utilities Company](#)
- Michael Posz, Director of Safety at [Fraleigh & Schilling](#)

To nominate a candidate for the 2020 Excellence in Safety Award, [click the link](#) and complete the application. Applications will be accepted until **April 16, 2021**. The top three nominees and the 2020 Excellence in Safety Award recipient will be announced in early 2021.

Please [submit nominations for safety leaders](#) who fit the award criteria today.

About the Excellence in Safety Award

The top three nominees selected will be featured on [preco.com](#) and in one joint press release

- more -

individually highlighting the nominees' career history and best safety practices. An individual press release will be published featuring the winner of the 2020 Excellence in Safety Award.

Award Criteria

- Initiative: The nominee demonstrates leadership, initiates open discussions, introduces programs, and gives voice to safety concerns within the industry, community, or business.
- Involvement: The nominee takes an active role in industry associations, community safety programs, and business or legislative policy changes to advance safety.
- Innovative: The nominee is creative and imaginative; introduces new ideas and suggestions to move safety into the forefront of the community, legislature, business, or industry they serve.

This award intends to recognize an individual who demonstrates excellence in advancing best safety practices throughout the community, business, or industry by continuously going above and beyond to integrate, innovate, and educate others to inspire change and improve safety.

About Sensata Technologies, Inc.

Sensata Technologies is a leading industrial technology company that develops sensors, sensor-based solutions, including controllers and software, and other mission-critical products to create valuable business insights for customers and end-users. For more than 100 years, Sensata has provided a wide range of customized, sensor-rich solutions that address complex engineering requirements to help customers solve difficult challenges in the automotive, heavy vehicle & off-road, industrial, and aerospace industries. With more than 21,000 employees and operations in 11 countries, Sensata's solutions help to make products safer, cleaner, and more efficient, electrified, and connected.
