

TARTABIT

IOT BRIDGE

Enabling Better IoT Solutions

Microsoft Partner

Our Vision

Tartabit's vision is to offer developers the easiest to use, easiest to buy, and easiest to deploy LPWAN Cloud Gateway Service allowing next generation IoT devices to seamlessly integrate with Microsoft Azure IoT.

Microsoft Partner

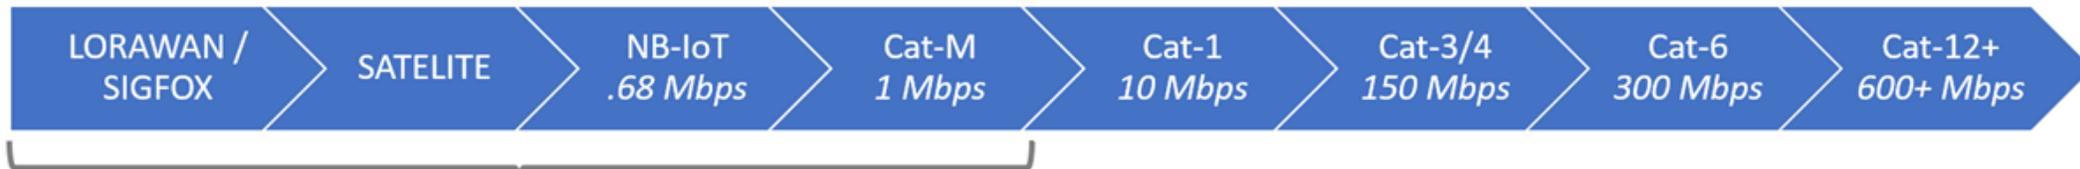

Expanding Pillars of LPWAN Integration

Frictionless Integration with Microsoft Azure IoT

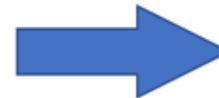

Converging to SDKs from the hyper-scale cloud providers

Diverging technologies solving similar problems leading to fragmented communication protocols

Proprietary TCP/UDP protocols

the right tool for the job

- Support for new and emerging LPWA IoT Standards
- Support for popular proprietary device protocols
- Support for custom protocol decoders
- Support for many transports such as LORA, UDP and TCP
- MQTT is not ideal for many LPWA solutions
- Integrate existing fleets of devices with ease
