

Performance Enhanced Delivery's Organic-Coating

Our value is being a tool for implementing **SUSTAINABILITY** to grow responsibly via a circular model.

CIRCLES OF SUSTAINABILITY - Modified

Because of our impact in one (of 4) single sector (Ecology), a domino effect resonates through each of the other sectors. Therefore, not only do we have an impact within **ECOLOGY**, but we also have a unique ability to address segments in each of the sectors (Ecology, Economics, Politics, Culture) through our innovative coating composition.

ECOLOGY

Materials & Energy → Simple Ingredients; Reduced Energy Consumption
Water & Air → Reduces Runoff (Red Tide); Supports Carbon Sequestering
Flora & Fauna → Composition breaks down and feeds soil biology
Habitat & Food → Safe for ruminants, pets, kids, and us; Food Safety
Place & Space → Stewardship for conservation; Grow Responsibly
Emission & Waste → Reduces CO₂; Aids in Eliminating Fugitive Plastics

Ecology
Economics
Politics
Culture
