

# Pay-as-you-go + Premier Payroll Connections

A Pay-as-you-go program utilizing automated data feeds provides a more efficient, cost-effective, and accurate solution for Insurance Carriers, Agents and policyholders. InsurePay is now offering Premier Payroll Connections as an add-on to your Pay-as-you-go package for an additional fee.\*

## Why have automated payroll connections?

### Real-time Data & Cost Savings

Automated data feeds allow for real-time reporting of payroll information, reducing the need for manual data entry and minimizing the risk of errors.

This leads to more accurate workers' compensation premiums and cost savings for businesses.

### Enhanced Customer Experience

Automated data feeds enable an efficient and quick process for premium calculation, policy issuance, and claims processing.

This results in a streamlined and faster experience for both businesses and insurance providers.

### Improved Accuracy & Transparency

Automated data feeds provide reliable and up-to-date information on payroll and claims data, allowing for improved accuracy and transparency in the calculation of workers' compensation premiums and claims payments.

### Better Risk Management

By having real-time data on payroll and claims information, businesses and insurance providers can better manage risk and make informed decisions.

This can result in a more effective and cost-efficient workers' compensation program.
