

Hot Lava Software, Inc. is the leading provider of mobile content authoring software and service solutions. Founded in 1999, Hot Lava anticipated the need for mobile content to support a growing mobile, field and remote workforce. Using Hot Lava Software's patented and proven mobile content development system **Learning Mobile Author™**, your organization or university will have the tools and knowledge needed to launch a mobile initiative faster and more cost effectively than you would have ever imagined.

Learning Mobile Author™ empowers your organization to design, create, edit and publish mobile knowledge solutions. Mobile knowledge needs continue to grow as it is embraced by more organizations. Our clients' employees have less time to accomplish more work. Using mobile learning people enjoy the ability to easily download, review, and test on specific targeted subjects.

Key reasons for **Hot Lava Software** mobile authoring solution:

• Just-In-Time	• Easily Distributed	• Needs Oriented
• Cost Effective	• Portable	• Mobile

Hot Lava Software offers a full range of mobile learning products and services including:

- Learning Mobile Author is the fastest and easiest desktop authoring tool for mobile learning and mobile job aides. For the novice user, professional templates get your content mobilized and running in minutes; no programming required. For the experienced user, robust tools and components offer the flexibility and control needed to build graphical and dynamic mobile learning programs.
- Mobile Content is immediately available for use on Palm, Pocket PC, Blackberry and Windows desktop devices. These 150+ mobile learning courses, checklists and tests cover technical and management topics.
- Custom Development allows you to give us content and have it quickly and cost effectively converted to mobile learning, mobile testing and mobile checklists.

Hot Lava Software, clients, include:

• Verizon	• Cisco Systems	• Johnson and Johnson
• Unisys	• Nike	• Blue Cross Blue Shield
• Booz Allan Hamilton	• Sherwin Williams	• University of Georgia
