

## Do your company CBT Initiatives give you a headache?

*Computer Based Training (CBT) initiatives can give anyone a headache. They are complex, require technical expertise, lots of computers, expensive projectors and sound systems.*

### Largest Service Area of Classroom Computer Training In North America

Rentacomputer.com installs classroom computer training equipment anywhere in the United States, most of Canada and many parts of Europe! Multiple computer training sessions can be coordinated in multiple cities, even on the same day. Your Technology Travel Agent will coordinate all cities and you will have only one contact person to take care of all your computer training equipment needs.

Focus on your core competency...your computer training session. Don't be distracted by hardware and software problems. Let us focus on our core competency.. your computer training hardware installation and management.
