Can't thank you enough for finding you by surfing the web which is my disabled hobby. Since I am only on Medicare, I have been doing without some scripts as the COLA keeps going up but my income remains static. You saved me \$80 today on one script. I was amazed & a little skeptical when I brought my script in to my pharmacy along with your RX card and he took it. Amazing... As a disabled young person, former Legal Services employee, I thank you.

Respectfully,
Janice L. Fish

Independent Pharmacies:

Our pharmacy network also includes independent pharmacies too numerous to list.

Comparison to other Rx Cards

Many other Drug Manufacturer's (MFG) or Pharmacy's have (PAP) Patient Assistant Programs and are currently **limited** to only include no more than 300 of that **MFG drugs**. Pre-qualification is required. You must provide income verification and other personal information in order to get a discount off of your needed drug.

But not YOURRxCARD.

YOURRxCard requires no prequalification and we have over 12,000 drugs from all the brand and generic manufactures which receives our maximum discount.

Total: \$63,570.63

How do I use it? The card has your specific randomly selected identification number along with all of the PBM required pharmacy numbers. Your pharmacy will input your information into the computer where your permanent records will be kept. Once the information has been stored by your pharmacy you no longer need the card because your records are in the computer. Each time you return to the pharmacy you will get the plan's appropriate discount. Store your card/printed page in a safe place. You are required to pay the pharmacy in full for your discounted price.

What if I change pharmacies? When ever you change pharmacies or go to different pharmacy your new pharmacy must put your information in the computer. You have two options. Option 1: The card/printed page you previously created should be stored in a safe place. Bring the printed page with you to the pharmacy. Once at the pharmacy please present them with this printed page. The card has your specific randomly selected identification number along with all of the PBM required pharmacy numbers. Your pharmacy will input your information into the computer where your permanent records will be kept. Each time you return to the pharmacy you will get the plan's appropriate discount. Store your card/printed page in a safe place. Option 2: Go to the website and create a new card. If you have lost your card just create a new one. If you're traveling have the pharmacy go online and create a new card. You are never alone or without the ability to get your card and discount.

Does every member of my family need a card? Yes, each family member needs to create a new card for each member of the family.

How much does this program cost me? YOURRxCARD.com is totally free; we provide this service to any and all Americans that wish to save on their prescription prices.

Which pharmacies can I go to? We have over 50,000 participating major chains pharmacies and local pharmacies nationwide, please go back to the website and click on the "Pharmacy Locator".

What type of discount can I expect? Discounts vary and can range anywhere from 0%-75% depending on the type of prescription, brand name, generic name and the location of the specific pharmacy. The discounts are based on the combined purchasing power of the millions of clients of our Pharmacist owned National Pharmacy Benefits Manager.

Where can I find out the approximate cost of the prescription drugs? Go to the website and click on the "Medication Pricing Tool"
