

Easy, efficient control of your FOG program

Inventory

Build an inventory of Food Service Establishments (FSEs) in your service area.

..... **INITIAL LIST** Import an existing list of FSEs or key FSEs into LinkoFOG as information is available. Comprehensive tracking of traps, contacts, addresses and more.

..... **UPDATE & MAINTAIN** Add new FSEs, retire FSEs, modify contacts, update schedules, revise extraction devices.

..... **DYNAMIC FSE LISTS** Quickly view sub-sets of FSEs: With/without traps, new, retired and more. Display in a variety of reports/spreadsheets.

..... **MAILINGS** Automatically print educational materials, BMPs, Notice of Violations (NOV)/warnings & mailing labels.

Inspections

Inspect FSEs using pass/fail status based on facility observations of grease & solids layers within trap/interceptor.

..... **SCHEDULE** Auto schedule inspections. Produce custom field inspection forms and task lists. Focus inspections within a geographic area to save time.

..... **INITIAL/ONGOING INSPECTIONS** Verify existing FSEs, characterize new FSEs, identify ownership change & renovations.

..... **GREASE TRAPS** Track grease, water and solids layers, automatically calculate % grease, 25% rule compliance.

..... **VIOLATION DETECTION** Inspection criteria triggers violation notices. Produce custom NOV/warning letters, track compliance requirements, manage escalation process.

Maintenance Schedule

Proper maintenance reduces the amount of FOG entering your sewers.

..... **SCHEDULE** Easily auto schedule trap cleanings for all FSEs, view schedules and history.

..... **TRACK** Manifest ID, amount/date pumped, hauler, date of disposal. Completed submissions are rescheduled.

..... **DETECT LATE MANIFESTS** Quickly view all late maintenance logs and/or manifest submissions.

..... **MAILINGS** Customizable letters & mailing labels for late FSEs. Correspondence history for late submissions.

Educational Outreach

Educate FSEs to reduce the amount of oil & grease entering your system.

..... **CREATE BMPs** Use MS Word® to create educational outreach materials and templates. Cut and paste existing materials into LinkoFOG.

..... **RECIPIENTS** Build subsets of FSEs: With/without traps, major/minor FSEs, new vs. existing, FSEs in hot spots, etc.

..... **MASS MAILINGS** Custom outreach materials are generated for your list of recipients in seconds. Reuse standard materials.

..... **OUTREACH TRACKING** Generated outreach materials are logged. Easily see who has been sent materials and when.

Violations & Enforcements

Detect violations, issue NOV/warning letters, manage compliance requirements.

LATE TRAP CLEANINGS Detect late/missing manifests, send reminders or NOV letters.

FAILED INSPECTIONS Detect grease/solids layer exceedances, trap repair required or failed facility observation. Send NOV or warning letters.

COMPLIANCE MILESTONES Customize enforcement response plans, reuse plans, follow-up reminders.

VIOLATION REPORTING Comprehensive compliance reporting, complete violation history and escalations.

Sample & Result Analysis

Schedule, evaluate, track sample analysis compliance of FOG, BOD, TSS, pH & more.

ANALYSIS PARAMETERS Schedule/track sampling for FOG, BOD, TSS, pH & temperature, limits for any/all parameters.

SCHEDULE SAMPLES Auto schedule all samples, print sampling schedule by date due and by geographic area.

MANAGE RESULTS Print reports summarizing sampling results over all or part of the system to identify hot spots.

VIOLATION PROCESS Parameter exceedances are automatically detected allowing you to send NOV/warning letters and schedule follow-up compliance events.

Flexible Reporting

Customize Linko reports to make them your own.

REPORT CUSTOMIZATION Build/modify reports to meet exact needs: Add logos, edit, add/remove report fields.

MAIL MERGE LETTERS Copy your MS Word® letters into LinkoFOG, mass mail using your custom data sets.

CUSTOM DATA SETS Quickly and easily make reusable groups of FSEs for reporting.

MS WORD & MS EXCEL Export reports/letters to MS Word® and MS Excel®.

LinkoHW

Track Hauled Waste. Cradle-to-grave FOG management: Efficient verification of trap-cleaning compliance.

HAULERS Track and report by hauler name, address, permits, contacts, vehicles, drivers.

ACTIVITIES & EVENTS Track hauler inspections on-site or in the field, track hauler permits & associated submissions.

DISPOSAL TRACKING Track by load or by manifest. Record hauler, manifest ID, amount pumped, truck ID and more.

DISPOSAL REPORTS by hauler, dates, waste type, in-service area or outside service area, etc.
