How will RoboMail change my current mailing?

What is this?

Your setup is typically averaging 100K per hour.
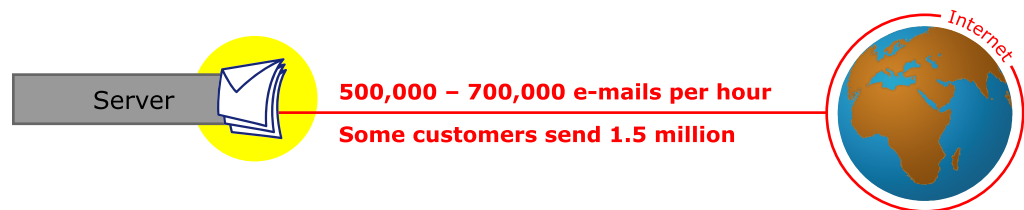

Your current mailing solution

Server

100,000 e-mails per hour

Internet

A single server running RoboMail can send approximately 500,000 to 700,000 messages per hour. Some customers report rates in the 1.5 million range.

Call our toll-free number or visit inter7.com for a free demo and more information.

With RoboMail

Server

500,000 – 700,000 e-mails per hour

Some customers send 1.5 million
