Regionally popular and National champion instructors from across the US are teaching beginner, intermediate and all-level classes throughout the weekend. All classes are categorized by level of difficulty. You may find definitions for each level on the website - Beginner, Intermediate, Advanced or Masters.

Beginning dancers can choose a track that helps get them in the swing of things with more detailed instructions than intermediate and advanced classes. Attendees are asked to qualify before taking Advanced and/or Master's classes. Master's classes are especially fast paced and recommended for instructors and very advanced dancers.
