

TRULY FLEXIBLE. TRULY ACCURATE.

KEY FEATURES & BENEFITS

TruScore™ is an online application that provides a platform for designing, implementing, and managing simple to complex survey programs.

- Requires no software installation and can be accessed by administrators, participants, and raters from any computer that has an Internet connection & browser.
- Participant and rater tasks are customizable and presented in a guided, easy to understand format.
- Surveys can be supplied by you, purchased from The Booth Company, or customized. In each case, survey and question options allow for unlimited possibilities.
- All participant related tasks (such as inviting raters, taking self-surveys, monitoring rater progress, downloading & viewing feedback reports, creating development plans, and requesting coaches) are accessed from one central webpage.
- Reports can be processed as PDF and/or printed, and delivery can be controlled by an administrator, coach, or facilitator.
- Supervisor, coach, or administrator approval can be required for rater selection and/or report delivery.

- Administrators can have detailed project management rights, an easier hands-off approach, or anything in between. The administrative control of your survey programs can be customized to fit the needs of your organization.
