Every big screen needs a hero.

media merge™ SHOW SOURCE™ 3D

The world's largest third-party service agent for IMAX® theaters participating in the SPP brings you the premiere media server for the giant screen industry. The MediaMerge ShowSource™3D is a sound and video source featuring an intuitive touch-screen interface.

What can the ShowSource™3D do for my theater?

- ▶ **PLAY SIX-CHANNEL UNCOMPRESSED DIGITAL SOUNDTRACKS**
- ▶ **PLAY HIGH-DEFINITION VIDEO FILES FOR LCD/DLP PROJECTION WITH MULTI-CHANNEL AUDIO**
- ▶ **PLAY 3D VIDEO FILES FOR DIGITAL CINEMA**

Play stand-alone multi-channel audio for announcements, background music, and more

Play sponsor slides and video advertisements

Use built-in geometry correction and image warping to project video on non-flat surfaces such as dome and curved screens

Control external devices including lighting, projectors, microphones, playback levels, and other sources manually or as part of a pre-programmed sequence

Organize and store playlists and show sequences using the intuitive touchscreen interface
