

If you have complex
Time & Expense tracking
 requirements, you will
 especially benefit from this
highly customizable and
easily expandable solution.

Accorto Cloud T&E

Accorto Cloud T&E is a feature-rich solution that automates the management of corporate expenses via comprehensive time recording and reporting capabilities, thus facilitating intelligent accounting practices and strategic decisions throughout the enterprise. Designed for users across industries, this highly customizable and easily expandable SaaS solution provides immediate value to professional services departments and organizations seeking to streamline operations, cut internal costs and improve business processes.

Highlights

- ✔ Capture time and expenses efficiently - via web, email, mobile, spreadsheet, credit card.
- ✔ Communicate time & expenses to customers and optionally get approval.
- ✔ Supports corporate expense policies, business processes and extensive reporting capabilities.

The 'T&E Quick Entry' form includes the following fields and sections:

- Entry Mode:** Expense
- T&E Date:** 8/25/2009
- Account:** Acme, Inc.
- Receipt Qty:** 30
- Receipt Description:** 8810 Airfare
- Waiting Reason:** Top to airport

Receipt Amount	Financial Account	Receipt Qty	Description	Waiting Reason
12	8810 Airfare	30	8810 Airfare	Top to airport

Support

Accorto Cloud T&E and Cloud Plus are subscription SaaS applications with seamless migration to new versions and upgrades.

The force.com infrastructure guarantees > 99% reliability.

To ensure your implementation is a success, a standard support package is included with the subscription of Cloud T&E or Cloud Plus. This includes email support and case management with reactions within two business days. 24x7 phone support with Service Level Agreements are also available. For those seeking additional support requirements, Accorto's premium support package includes the above-mentioned services plus operations monitoring and proactive maintenance.

About Accorto

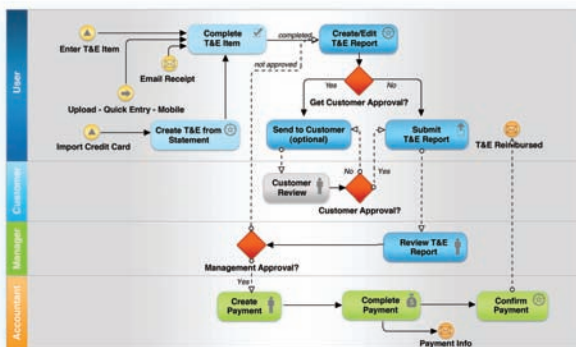

Founded in 1999 and headquartered in Redwood City, Calif., Accorto is an internationally recognized leader in agile model-driven business applications. Previous products include Compiere, the premier Open Source ERP solution.

The newest offering, Accorto Cloud Time & Expense is built on the Force.com platform for increased productivity and customer satisfaction. Accorto's subscription SaaS solutions enable companies to manage projects, resources and financials more efficiently, resulting in lower operational costs and increased profitability. Accorto's team of leading T&E visionaries has earned numerous advanced staff certifications for Salesforce, Agile, Java and Oracle technologies and is included in the Force.com Forty Innovation Showcase.
