A bit about e-filing

Millions of people e-file their tax extensions every year. The IRS has a digital initiative--a push to get up to 80 percent of their forms online--and tax extensions are included in that. E-filing a federal personal tax extension with Form 4868 is quick and easy. A tax extension extends the time to file, not to pay taxes (if they are owed). ExpressExtension.com can aid you in e-filing your federal personal or business tax extensions.
