

# Why grind your slip rings the old way? Stay Online!

*Cutsforth's unique Online Collector Ring & Commutator Truing Service  
will bring your collector rings "back into round"*

## Online Truing Saves Maintenance Costs

No lost revenue from forced outages due to vibration or arcing problems.

## Greater Accuracy & Reliability

Online Truing is performed at operating speed and temperature to restore rings to like new. It greatly reduces vibration and brush chatter with finished results often less than 1 mil.

## Cutsforth Has The Experience & Expertise You Need

We are the experts! Over the past 20 years, we have safely Trued hundreds of collector rings and commutators in power plants worldwide – 2 MW generators to 1150 MW nuclear units.

## Spiral Groove Restoration Service

Lost Your Groove? Cutsforth can restore your collector ring's helical groove (also called spiral or cooling groove). This process can save you thousands of dollars by extending the life of your ring.

## Emergency Services

Our fast response times will get you back online quicker than OEM and localized service centers. We offer 24/7 emergency services.

## Have A Question?

Give us a call, we'd love to have the opportunity to impress your power plant team.

*"Cutsforth provided unmatched response time, highly professional technicians and 100% service satisfaction"*
