# The Must-Have Amenity

*For Every Hotel*

## **Multi-Homing Solution**

Multiple Bandwidth paths ensure that your hotel will always have enough bandwidth to support your network users.

## **Protect Your Bandwidth**

We protect your network from unauthorized use! With Secure Guest Authentication you will always be able to know who is on your network.

## **Secure Guest Authentication**

Never worry about who is accessing your network!

Unique user names and passwords protect and record who is using your bandwidth.

## **Security**

Complete user security - no user can view any other user or access any other user's device.

## **Mobile Smartphone Access**

Unlimited data transfer for Smartphone Users over your Wi-Fi network. Allow your guests to make cellphone calls over Wi-Fi even if they are experiencing poor cell service in your hotel.

## **24/7 Support**

Proactive Monitoring and Quick Servicing - Our Customer Support representatives are available via toll free access - 24 hours a day, 7 days a week.

## **VLAN Support & Private Network Capability**

Our networks support Virtual Private Networks capability ("VPN") complete with their own SSID with SPA encryption and wireless network security.
