### STATEMENT OF NEED

The 2nd Annual Chairs in Psychiatry Summit featured a broad array of topics and formats that showcased the expertise and insights of the leaders in psychiatry and provided an opportunity for participants to engage and interact to discuss the challenges and rewards that they face each day in the management of their patients. CME Outfitters has selected four key presentations that highlight the scientific data and practical resources presented at the conference in an effort to expand the community of practice and improve patient outcomes:

#### Geriatric Depression: Clinical and Neurobiological Correlates

Anand Kumar, MD

#### Is it Insomnia, Is it Hypersomnia, Is it Both?

W. Vaughn McCall, MD, MS

#### Treatment of Borderline Personality Disorder: The Most Stigmatized Illness

S. Charles Schulz, MD

#### How Do Genes Cause Mental Illness? The Good, the Bad, and the Ugly

Daniel R. Weinberger, MD

### LEARNING OBJECTIVES

At the end of this webcast activity, participants should be able to:

- Name 3 pathophysiologic mechanisms involved in geriatric depression.
- Recognize and differentiate insomnia and hypersomnia in patients with psychiatric disorders.
- List 3 studies evaluating pharmacotherapy alone or combined psychotherapy + pharmacotherapy for borderline personality disorder and describe their practical implications for patient care.
- Apply the latest information in genetics and neurobiology to improvements in patient care.

### TARGET AUDIENCE

Physicians and other healthcare professionals with an interest in mental illness.

### FINANCIAL SUPPORT

Funding for this activity is provided by CME Outfitters, LLC, and by educational grants from various commercial interests. Visit [www.neuroscienceCME.com/CMW503](http://www.neuroscienceCME.com/CMW503) for more information.

### CREDIT INFORMATION

No CE credit is being offered for this webcast.
