

## **PHYSICIANS' CAPITAL INVESTMENTS ANNOUNCES \$950,000 EQUITY FINANCING FOR NEW DIALYSIS CENTER IN SANTA FE, NM**

FOR IMMEDIATE RELEASE

January 18, 2010, Plano, TX – Physicians' Capital Investments, LLC (PCI), a medical development company that focuses on forming real estate partnerships with physicians and healthcare operators across the country, announced November 8 that it has closed on a \$950,000 round of direct participation equity financing. The funding will be used to purchase a completed home hemodialysis training facility with Fresenius Medical Corporation, N.A. (NYSE: FMC) signing a lease to operate and manage the facility. Richfield Orion International, Inc. (ROI), a broker-dealer located in Colorado Springs, CO, acted as a selling agent to the transaction, which was sold pursuant to the regulations associated with a Regulation D private placement offering.

“We at PCI are looking forward to the opportunities 2011 will bring,” said Pedro Juan Vergne-Morell, CEO of PCI. “The efforts of Richfield Orion, given their extensive years of forming Physician Partnerships, are enabling us to meet our growth capital needs and give us the ability to take advantage of key opportunities across the county.” Vergne-Morell also stated, “We see a market full of opportunity and believe that the combination of our expanded management team and capital base will quickly position us as a key leader in this industry.”

The \$950,000 of equity was raised primarily through the local physician investors involved in the facility as well as through other physician investors in PCI's growing portfolio of real estate partnerships. “The transparency of PCI's offerings coupled with very solid, credit worthy leases make these investment vehicles attractive to many accredited investors with which we have contact. We at ROI look forward to facilitating many more of these transactions in accordance to FINRA and SEC guidelines for many years to come,” stated Leete Jackson, a Registered Representative of Richfield Orion.

### **About Physicians' Capital Investments, LLC (PCI)**

Founded in 2007 by Pedro Vergne-Marini, MD and Jerry M. Huffman, PCI originated from over 90 years of combined medical construction and clinical care experience. In the last three years, PCI has successfully developed and constructed 14 customized, high-quality, modern, and efficient medical office and clinical facilities across the United States. PCI guides each project by providing ongoing expertise in project development, accounting, financing, leasing, business development, information technology, construction, medical staff recruiting, and the final sale of the project. Typically PCI provides a unique opportunity for individual physicians and their employees to purchase medical and clinical facilities without personal liability. PCI is owned in part by physicians; hence, PCI's tagline “*Physicians Investing in Physicians.*” For more information on PCI, please go to [www.physcap.com](http://www.physcap.com).

This release may contain “forward-looking statements”. All statements, other than statements of historical fact, including statements that address activities, events or developments that we or our management intend, expect, project, believe or anticipate will or may occur in the future are

forward-looking statements. Forward-looking statements are based on management's assumptions and assessments in light of past experience and trends, current conditions, expected future developments and other relevant factors. They are not guarantees of future performance, and actual results may differ significantly from those envisaged by our forward-looking statements. Among the factors that could cause actual results to differ materially from those described or implied in the forward-looking statements are general business and economic conditions, production delays resulting from lack of regulatory certifications and other factors, competition in our existing and future markets, lack of market acceptance of our products and services, the substantial leverage and debt service resulting from our indebtedness, loss or retirement of key executives and other risks disclosed by us or generally associated with our business.
