

# Beyond Image Sharing

## SECURE

HIPAA compliant personal cloud security. Rest assured you are protected.

## ON-DEMAND ACCESS

With full diagnostic tools you can read, view, share and report directly from the web.

## IMAGING + EMR

Our flexibility allow you to share and manage, but also burn CD's, upload , report and download to easily import to your EMR.

## SHARE SOURCE

**No longer are you locked into a network.** You're in control. Share & manage studies from anywhere in the world.

## DIAGNOSTIC SOURCE

**Unlock your proprietary systems.** Connect to your PACS. 100% vendor- neutral archiving. Multi-Specialty moving or still images. Advanced Visualization tools for all specialties.

## PRO-NETWORK SOURCE

**Free Access to our network of Professionals.** Collaborate with network professionals. Access imaging providers, mobile providers, specialties and more.

## MARKET SOURCE

**Improve your business results** and add value to your clients. Optimize your visibility. Free customizable service brochure and quick start guides for your clients.

## FAST, RELIABLE AND AFFORDABLE

**Powerful Collaboration** On-demand access to large or small data sets with flexible policy control over your patient's information. *OneSource* makes it easy to securely share images across multi-specialties with high performance cloud computing. Go beyond accessing images within the network. *OneSource* enables you to work efficiently from any location with access to nonproprietary DICOM images, priors and clinical information. Vendor neutral, we provide an integration point where multiple systems and archives can share images. Our advanced visualization tools go *beyond radiology* making it possible for ordering physicians such as vascular surgeons, oncologists and cardiologists to access moving or stationary 3 dimensional images.

**Proportional & Scalable** *OneSource* gives smaller organizations and primary care providers an economically feasible way to capture, store and share their patient's images.

**Beyond Imaging** our *OneSource* network gives you access to other physicians, specialists and colleagues. We provide visibility to organization and individuals looking to expand their services in the marketplace. Looking for consultation or a reading specialist? We can connect you!

BEYOND IMAGE SHARING

# Sharing That Counts

Whether it's a chest X-Ray or echocardiogram, our enhanced image sharing technology lets you quickly and easily upload your images. Your PaxBox One Source image management system gives you unlimited storage and unlimited user access. Our secure cloud gets images from one clinician to the other without VPN or dedicated lines.

*Getting started couldn't be easier.* Upload a study to your secure cloud server. With the full diagnostic tool set, you can read, view, share and report directly from the web, regardless of specialty. You have total control of your patient information. Share with your network of specialists or invite a peer with a few clicks. Add or change permissions at any time. With our clean and intuitive interface, uploading, viewing and even searching for a patient is a snap.

## TECHNICAL SUPPORT

24x7 Customer Support with no maintenance contract.

## RAPID ACCESS

Whether uploading or viewing our unique technology enables you to begin viewing the second you access your studies. No waiting for large image sets to complete.

## CONTROL

You're always in control with our Administrative Access. Manage your business from the Web. Grant access with a click.
