We Buy Houses Arizona: Experienced Foreclosure Experts Provide Solutions To Arizona's Housing Problems

There are enormous problems with the housing market in Arizona. The Motto of Sell Quick for Cash is "We Buy Houses Arizona" which is making a lot of Arizona home owners happy.

PHOENIX, Arizona (February 01, 2012) – The founder of Sell Quick For Cash, LLC Cody Sperber has been helping Arizona homeowners avoid the painful process of foreclosure for more than five years. Recently the Arizona market for houses has been flooded with significantly underpriced homes. This leaves many people asking themselves, should [we buy houses?](#) [Arizona](#) State University's Professor emeritus of real estate at the W.P. Carey School of Business, Jay Butler, states that the numbers of people who are suffering from the

effects of foreclosure in Arizona are amongst the highest percentage of people negatively affected in the nation by the ongoing housing crisis. Phoenix neighborhood homeowners are still struggling to make ends meet or get out from under lenders that are threatening to foreclose on their homes.

In order to protect home and family many say it stands to reason that [we buy houses. Phoenix](#) housing experts are recommending that all potential owners who are missing or late on mortgage payments become familiar with Arizona's foreclosure process and the Arizona foreclosure laws. This task can be monumental to homeowners who are facing stressful levels of financial hardship. The recent housing "bubble" burst still has the nation's economy struggling to recover and fewer people who feel it's best if we buy houses. Arizona homeowners find themselves "underwater" when it comes to the value to debt ratio of their

home at a higher percentage rate than those who own homes in most other states.

In a recent public address President Obama stated, "This housing crisis struck right at the heart of what it means to be middle class in America: our homes, the place where we can invest our nest egg, place where we raise our family, the place where we plant roots in the community, the place where we build memories." Many people in Arizona feel that the need to announce that the State's motto should still be that "[We buy houses Arizona](#)." Arizona residents want to be able to feel safe in following that long-term investment plan.

President Obama recently announced a proposal to lower lending rates, making it possible for millions of borrowers who have not been able to get out from under bloated mortgages to refinance their homes. This plan also proposes to offer hope to those who want to afford to purchase a home. Many agree with

Obama who stated that: "It is wrong for anyone to suggest that the only option for struggling homeowners is to sit and wait for the market to hit bottom." Many people are thinking, "Why should we buy houses?" Arizona is no different.

The company Sell Quick For Cash, LLC sponsors highly educated, locally focused team members who care about your family and have years of expertise, dealing with avoiding foreclosure. Rather than sit and wait for someone to spontaneously buy houses in your area, this company has been able to reduce any hassle related to timelines or extemporaneous costs required by a Realtor. They understand how much is at stake for you as a homeowner. The company, Sell Quick For Cash, LLC adheres to the same standards as the Better Business Bureau. Their message that they are trying to get out is that "[we buy houses Phoenix!](#)" and they commit to bringing Arizona home sellers

solutions to their foreclosure problem in writing with no hidden fees or commissions required.
