## How It Works

### Simple Automated Calling and Texting

#### **1) Set up your group.**

Upload a spreadsheet or enter names and phone numbers on our website. If you contact the same group each time, you'll never have to repeat this step again!

#### **2) Create your message.**

To launch your campaign, dial a toll-free number to record your voice message, or easily create your text message on our website.

#### **3) Relax!**

You're done! CallMultiplier turns your one message into many, quickly and efficiently delivering your message to everyone in your group!

**CallMultiplier\* is the best solution  
for your automated calling and  
texting needs.**

Priced as low as 4.9 cents per message credit, there is no more cost-effective way to reliably send your urgent voice and text messages!

Phone calls can display your Caller ID or you can avoid getting overwhelmed with callbacks by using a CallMultiplier phone number which will replay your message when called.

Also ask about our 30-day Satisfaction Guarantee, subgroups, polling, customized uploads and real-time reports.
