

# Revolution Fiber Technology:

Our new Revolution fiber uses a state of the art process that closely replicates the look and feel of natural sod.

The introduction of this blade elevates EasyTurf products to an authenticity level never before achieved.

The supple softness of the fibers is made possible by 11 exterior and seven interior ridges crossing the width of the blade allowing the fibers to flex, twist, and rebound like natural grass blades.

## A New Level of Authenticity:

- State-of-the-art polymer formula creates realistic fiber movement
- Proprietary, precision manufacturing produces the softest texture available
- New matte finish increases color brilliance while reducing shine
- 100% permeable backing with built-in weed barrier
- 11 exterior and seven interior ridges combine for maximum resilience
- No Fading! Industry leading ultraviolet inhibitor technology

Before revolution fiber technology, synthetic grass products were accompanied by a subtle shine not present in natural lawns. Now, with Revolution's natural, matte finish the true field and olive green colors pop, uninhibited by sheen, in a near perfect match to a natural sod lawn.

## Revolution Fiber:

The new age of artificial turf is here. The latest innovation in a long line of firsts by EasyTurf. Complete with the only 100% permeable backing, this supple, soft proprietary yarn polymer formulation includes industry leading ultraviolet inhibitor technology and increases resiliency while reducing shine to produce the authentic look and feel of a beautifully manicured lawn.

## MaxxFlow Backing:

This proprietary backing, exclusive to EasyTurf, provides a built in weed barrier with unmatched drainage capacity. Liquids easily flow through EasyTurf's integrated MaxxFlow backing for quick, thorough and clean drainage.

- Drains faster and cleaner than real grass
- 100% drainage with zero absorption
- 100% permeable backing that eliminates the need for deodorizers and ammonia absorbing additives
- Increased play time with no dirt, mud and grass cuttings tracked indoors.

## Revolution Fiber | Products

Product	Color	Thatch	Total Weight	Pile Height
Olive Lush (GF-LIT-R-O)	Field Green/Olive Green	Yes	94 oz /yd <sup>2</sup>	1.625"
Nutmeg Lush (GF-LIT-R-ON)	Field Green/Olive Green	Yes	94 oz /yd <sup>2</sup>	1.625"
VersaLush (GF-FRG-R)	Field Green/Olive Green	Yes	77 oz /yd <sup>2</sup>	1.00"
Tour Fringe (GF-FRG-R)	Field Green/Olive Green	Yes	77 oz /yd <sup>2</sup>	1.00"
Select Blend 2 Color (GF-APT-2C)	Field Green/Olive Green	No	66 oz /yd <sup>2</sup>	1.75"

FieldTurf is made from partly recycled materials.
