

## Certified Carrier Compliance Shipping Solution

### Enterprise Centralized Shipping Solution (ECS) for Oracle E-Business Suite

Businesses running ORACLE have a significant advantage. However, if your business ships orders via small parcel, LTL, and TL carriers, you always have to depend on external 3rd-party systems or black box solutions.

#### Why Choose ECS?

- Oracle EBS does not include carrier-compliant shipping as a standard transaction
- It is costly to integrate 3rd-party or carrier-provided shipping applications with Oracle EBS

The screenshot displays the Oracle ECS Shipping Transactions interface. Key components include:

- Oracle Shipping Transactions:** A sidebar menu with options like 'Click Release Form', 'Resolve Exceptions Form', 'Create LPNs', 'Packaging Calculator', 'Serial Numbers...', 'Choose Organization...', 'Show Contract Details...', 'Debug', 'View Picking Request', 'Workflow Status', 'Generate BOL', 'Generate Packslip', and 'PWXCarrier Shipping'.
- ECS Shipping Screen:** The main interface for 'Enterprise Centralized Shipping (ECS)'. It shows fields for 'Location/Plant Name', 'Ship From Address', 'Delivery No', 'Ship Method', 'Ship Details', and a table of items with columns for 'Item No', 'Description', 'Total Qty', 'Balance Qty', 'Partial Qty', 'H.U.', 'Weight', 'Dimensions', 'Tracking/Pro Number', and 'Master BOL Num'.
- Updated Shipping Transactions:** A pop-up window titled 'Additional Delivery Information' showing 'Total Freight' as 73.43 and 'Context Value'.

#### A next generation shipping solution for Oracle EBS

Leveraging years of industry expertise and proven software solutions, ProcessWeaver offers a single-source solution that allows users to rate, pack, ship, and track small parcel and LTL/TL shipments from Oracle E-Business Suite in an automated process. ECS for Oracle EBS takes the complexity out of multi-carrier shipping and provides a comprehensive, cost-effective, and ready-to-use application. Why consider integrating with just any 3rd-party shipping system, when you can leverage your investment in Oracle EBS with a solution which is tightly integrated with your Oracle system and is certified by carriers?

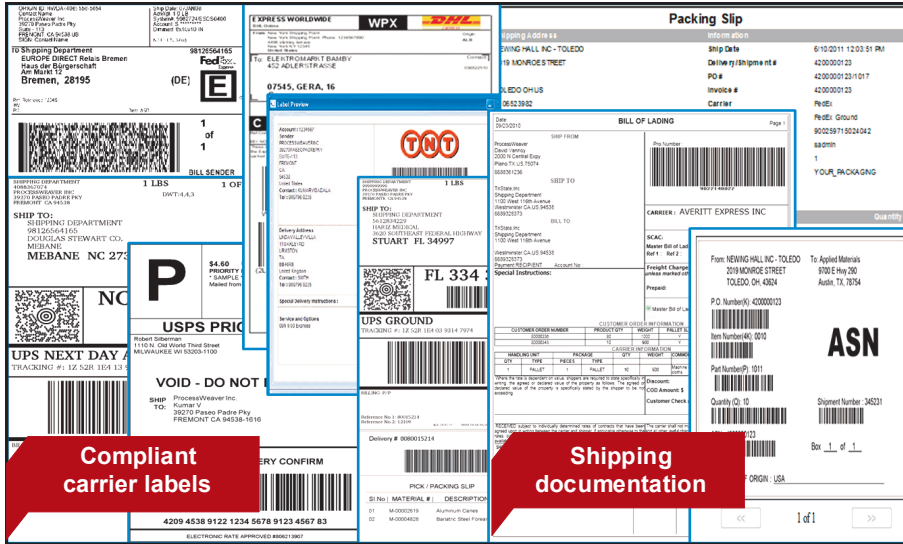

#### Enterprise Centralized Shipping (ECS)

ProcessWeaver provides complimentary solutions to Oracle EBS offering - the ability to rate, pack, ship, and track packages from within your Oracle system. ECS ensures that you consistently meet carrier and customer requirements for rating, routing, label and document printing, and EDI, without relying on an external 3rd-party solution. ECS ensures that the shipping from Oracle EBS is faster, more accurate, less problematic, and results in lower transportation spending and enhanced operational efficiencies.

#### Key Benefits:

- Accurately rate & route all shipments
- Print carrier-compliant labels & documents
- Prevent shipping errors that result from bad or incomplete information
- Electronically communicate with carriers, trading partners, and customers
- Track and monitor shipment status
- Automatically update Orders and Deliveries
- Receive Proof of Delivery

# Carrier compliant shipping labels and documentation

## Multi-Carrier Compliance

Powered by the most advanced carrier compliance technology, ECS ensures that you consistently meet carrier requirements for rating, routing, labeling, and international documents. ECS supports certified shipping for DHL, FedEx, TNT, UPS, USPS, and many more. In addition to small parcel carriers, ECS supports rating and shipping for virtually any LTL/TL carrier. It also complements OTM by providing small package shipping execution.

## Packing Handling Units

ECS lets you pack and ship, print a carrier label for each Handling Unit, a packing list, and any other transportation documents you need from a single transaction. By integrating processes and streamlining packing with shipping, you reduce the time it takes to pack and ship Deliveries/Shipments.

## Updating Oracle EBS Orders, Deliveries and Line Items

For each shipment, ECS automatically updates the Order, Delivery or line items with freight amount, tracking number, and any other information you might require to help facilitate other Oracle EBS processes. ECS can automatically trigger the Ship Confirm status as part of the shipping process.

## Enhanced Supply Chain Visibility

Real-time updating of Orders, Deliveries, Line Items with shipping and tracking information means real-time supply chain visibility. Enterprise users can easily access POD and tracking information by viewing Deliveries in Order Management or in Shipping Transaction. From ECS' Tracking Tab, users can access all tracking numbers associated with a specific Delivery, as well as delivery dates and signature information. Tracking numbers can be linked to Handling Units (if applicable) and contain hyperlinks that take users to carrier web sites for more detailed tracking information.

## OTHER ORACLE BASED SOLUTIONS

ProcessWeaver offers many other tightly integrated solutions that complement ECS and provide automation for a number of fulfillment and logistics operations.

## GLOBAL TRADE EEI/SED LINK (GEL)

GEL for Oracle EBS seamlessly allows end-users to file export information for shipments requiring filings with U.S. Census. GEL prepares the filing and transmits it to AESDirect for acceptance. Upon receiving acceptance, GEL updates the appropriate Delivery, Shipment, Export Document, with the correct External Transaction Number (XTN) and Internal Transaction Number (ITN).

## ENTERPRISE FREIGHT AUDITING AND ANALYTICS (EFA)

EFA for Oracle EBS is a comprehensive, easy-to-use platform that allows you to collect, aggregate, audit, and analyze shipping, tracking, and billing data. EFA allows you to audit each and every carrier invoice by checking it for errors, fraudulent use, and carrier service failures. EFA includes screens that allow you to review and approve carrier in-voices.

## ENTERPRISE FREIGHT SHOPPING (EFS)

EFS helps you determine the least expensive way to ship a package considering delivery date requirements. EFS ensures fastest shipping at the lowest possible cost and eliminate manual selection of the carrier and service level. EFS can also provide a Freight Quote Calculator for your customer service team.
