# Brainwave Optimization™

*Provide Brainwave Optimization and start changing people's lives.*

## What is Brainwave Optimization?

This non-invasive neuro-technology has helped over 45,000 clients (ages 1-100) worldwide maximize their brain function, in turn improving afflictions, injuries, pain, stress, fatigue, sleeplessness, compulsive disorders, addictive dependencies, and challenges to learning.

## Who can be a provider?

Compassionate, entrepreneurial people from all walks of life have chosen to become a Brainwave Optimization provider. The Basic Education Courses can prepare anyone to administer this life-changing modality. Many practitioners have chosen to add the service into their existing practices, these include:

- Naturopaths
- Psychologists
- Physical Therapists
- Spa Owners
- Athletic Trainers
- Yoga Instructors
- Life Coaches
- Healthcare Professionals

## What do I get with a system?

The turnkey provider program includes everything you need to begin helping clients right away.

- Desktop Computer and Printer
- BST Optimization Suite™ and Assess™

**Trauma Impacts the Brain** Physical & Emotional

Traumas – both physical and emotional – can knock brain functions out of balance. The resulting imbalance is often exacerbated as ailments and disorders. In turn, most of these consequences are eased when the brain is back in a state of harmony.

**Brainwave Optimization**

**How It Works**

**Unbalanced** vs. Balanced Brain

The brain controls the entire body. Balance is essential and the key to overall well-being and performance. Once the brain is balanced, the body follows. Brainwave Optimization™ is all about optimizing the brain, and hence optimizing all brain and bodily functions.

## Testimonials

**Charles H. Tegeler, M.D., Neurologist**  
Wake Forest University School of Medicine

“Taking advantage of tremendous advances in technology, as well as an exploding understanding of neurosciences, Brain State Technologies has created a method to objectively identify imbalances in brain energetics, suggesting dysfunctional, persisting autonomic responses to stress or trauma. The method offers a safe, non-invasive, non-threatening strategy for alleviating such underlying imbalances, with the potential to mitigate symptoms, not just mask them.

For many, this could improve their function and quality of life, and might actually prevent diseases that could result from long term persistence of stress-related physiological responses.”

**Berney Lincoln, Brainwave Optimization Provider**  
Alternative Health Care Solutions of San Diego  
San Diego, California

“Becoming a Brainwave Optimization provider has been a wonderful experience. Between my desire to help others and Brain State’s desire to help me be successful, I was able to assist many people including some that had lost hope. There have been so many positive results from my time with BST. Suffice it to say that this has been, by far, the best investment of my time and money in my life. I am so glad to be a part of such a warm and effective company with such a strong and compassionate leadership team.”
