

Making the Invisible...Visible

Visit us at NATS booth 220

Dr. Adam Kirkpatrick is the inventor of a patented new method for teaching the lower laryngeal position in singing using electromyographic (EMG) biofeedback.

OBJECTIVE: Hard Data VS Subjective Opinion

The Biofeedback Federation CIC is pleased to have Dr. Kirkpatrick as the leader of the BFE Voice Team. To learn more about the Voice Team and educational opportunities at the BFE, contact us at redfluency@gmail.com. For information on EMG instrumentation, contact nadine@thoughttechnology.com.
