

Quick Facts about Life Science Nutritionals

- Makers of the IronKids and Adult Essentials brand gummy vitamins.
- Private Canadian company with head office and manufacturing facility located in Burlington, Ontario.
- Founded by health and nutrition expert Stuart Lowther in 2005 because he saw the need for kids' vitamins with no fillers or artificial additives.
- Life Science Nutritionals launched in 2005 with IronKids Multi and Omega 3 vitamins, which hit the store shelves in 2007.
- In 2009, the company expanded the IronKids product line to include Calcium and Vitamin D.
- In 2011, the company launched the entire Adult Essentials product line, including Multi, Omega 3, Vitamin D, Vitamin B Complex and Vitamin B12.
- Only company to offer all-natural, dairy, gluten and nut-free products, using vegetable dyes instead of food coloring.
- The first company to offer fish oil supplements in a gummy form.
- All products are manufactured in their designated manufacturing facility that only makes gummy vitamins.
- Life Science Nutritionals manufacturers 35 million gummies a month.
- IronKids and Adult Essentials are exported to 9 different countries, including China, US, India, and Denmark.
- Awards include PTPA (Parent Tested, Parent Approved) winner, 2010 Best New Product from Canadian Living (Omega 3), and Best Selling Omega 3 gummy vitamin for kids in Canada.
- Business achievements include being named #10 in PROFIT 200 for Canada's Fastest-Growing Companies and Stuart Lowther being nominated as Entrepreneur of the Year in 2011 by Ernst & Young.
- What customers are saying about IronKids, "My kids absolutely love the IronKids Gummies - and I absolutely love the stuff they're NOT getting with these. Natural ingredients without all the added stuff." ~Jacki Yovanoff
- What customers are saying about Adult Essentials, "I used to take my vitamins a couple times a week but now I take them every day and I feel better for doing so. Healthier! I haven't had gummy vitamins since I was a kid. These gummies are like a daily treat. I WANT to take my vitamins now! It's not a chore - it's a treat." ~PTPA Tester

Life Science Nutritionals Company Background

Our Philosophy

At Life Science Nutritionals, we believe that your health is your greatest asset. That is why we are dedicated to developing nutritional products that deliver uncompromised quality and health benefits. By formulating products based on modern science and innovative technology, we are able to deliver a unique line of products with true nutritional value that help people live healthier and more fulfilling lives.

Our Company

Founded in 2005 by health and nutrition expert, Stuart Lowther, Life Science Nutritionals specializes the manufacture of premium quality gummy vitamins for kids and adults, under the trade names IronKids and Adult Essentials. Our focus is developing innovative vitamin formulations that make taking your daily vitamins fun (and tasty)!

Our Products

All our vitamins contain the highest quality ingredients without added fillers, artificial ingredients, or sugar coatings. Both the IronKids and Adult Essentials product lines are dairy, gluten and nut free, and use only natural ingredients, making it safe for the entire family. The Adult Essentials product line is also pectin based, making it suitable for vegetarians.

Our Manufacturing Facility

All our products are manufactured in our designated, Health Canada licensed manufacturing facility located in Burlington, Ontario. We are the only government audited and licensed gummy vitamin manufacturing facility in North America. We maintain the highest quality standards from our supply chain through to our manufacturing processes, allowing us to guarantee our products are dairy, gluten and nut free.

From Our Founder

“After watching companies put money and profit ahead of people, it was time for a company to put people first and deliver them the highest quality of products. Our goal is to give people access nutritional products that help support and maintain optimal health, improving their day-to-day quality of life.”

“Our approach to developing nutritional products is to apply sound nutritional science to the latest manufacturing processes. The result is our customers get the best possible product at the best possible price.”

~ Stuart Lowther, Founder and President, Life Science Nutritionals
