

Bauma China 2012: Good Platform to Display Aggregate Production Line for the Infrastructure Construction

The main goal of Bauma China 2012 is to pursue sustainable and environmental-friendly economic development, and infrastructure construction is the key point with fast speed urbanization of the country. DSMAC, as China famous ISO 9001 certified company, will display its high-tech sandstone aggregate production line on this show.

Bauma China 2012

Time: *November 27-30, 2012*

Address: Shanghai New International Expo Centre (SNIEC)

Industry: Construction Machinery, Building Material Machinery

Recommended Company: DSMAC

Exhibition booth: E5148

Bauma China 2012, mainly held by Messe Muenchen International (MMI), is an International Trade Fair for Construction Machinery, Building Material Machines, Construction Vehicles and Equipment. With strong strength, DSMAC will create excellent business opportunities in terms of [building material equipment](#), technology and services and delivering solutions for cost-efficiency, productivity and safety of operations, and a good opportunity for the rapid development of infrastructure construction.

Infrastructure construction all over the world has been conducted vigorously. In India, North Africa, Russia, Syria, Austria, Middle East area, etc. the infrastructure sectors are poised for growth all the time. In China, the construction industry was playing a supporting role in national economy in the past ten years, and in the latest Five-year plan China is continuing to invest in its infrastructure as a way of boosting the economic development in Central and Western China. The booming of the world's infrastructure expansion makes the mining machineries in greatly demand, especially the gravel and aggregate production line.

DSMAC has successfully undertaken China largest [sand aggregate production line](#) with capacity of 8000 TPD on November, 2012, for Tianrui Cement, China leading cement manufacturer. To the customer's surprise, the investment was recouped within 4 months, the working efficiency is improved at least 30%. DSMAC has become a main aggregate production line supplier of Tianrui Cement for its outstanding performance.

国内领先的日产一万吨砂石项目

——荃阳天瑞日产一万吨骨料生产线

荃阳天瑞公司隶属河南天瑞集团，该公司拥有目前世界上最大的一条水泥新型生产单线（12000/d）。

荃阳天瑞砂石项目是荃阳天瑞公司矿山投资的一条日产10000吨的砂石骨料生产项目，原料为废弃石灰石矿山尾料，属于资源综合利用。荃阳天瑞日产10000吨砂石生产线是一条国内先进的砂石线，全套主机设备由郑州鼎盛工程技术有限公司提供。该生产工艺采用两段两闭路，主要设备采用国内先进的石子专用破碎机以及除土筛分喂料机。生产的石子具有颗粒形状好、强度高、含土量极低，是高品质混凝土的所需骨料。

荃阳天瑞日产10000吨砂石线总投资1300多万元，从投产开始不到半年全部收回投资，效益非常显著。

欢迎您莅临郑州鼎盛工程技术有限公司
和天瑞一万吨砂石线参观和指导！

DSMAC advanced sandstone production line includes vibrating feeder, high-performance jaw crusher, high efficiency [stone crusher](#) and high abrasion resistance [spare parts](#). The production line has proprietary intellectual property rights and some unique features as follow:

1. Good gravel particle shape, reasonable grade and less grinding power.
2. Equipment investment is 25-50% less than conventional production line, short investment recovery period and significant economic benefit.
3. Automation, high degree of information technology, high production efficiency and less employee;
4. Safe, energy-saving and environmental-protection modern production line.

DSMAC has made full preparation to meet the valuable opportunity of Bauma China 2012. Based on the experience of Bauma China 2010, the gravel and aggregate production line will be a fascinating point catering to the expansion of infrastructure construction. We will wait for you in booth E5148 at Bauma China 2012.

ABOUT DSMAC

DSMAC is a top manufacturer and supplier dedicated on feeding, crushing and screening equipment as well as the wear-resisting spare parts. With the impressive 128,000 square meter factory space fully equipped with CNC machines, spectrometers, welding machines imported from Germany, DSMAC can offer 280 sets of crushers, 30,000 tons of crusher parts and any orders in 15-30 days. Besides, there are also a professional R&D group consisting of 55 engineers who have already researched products with 28 patents, therefore DSMAC can provide the [limestone crusher](#) with the largest output and crusher rotor and hammer head with up to four times the life span of those of our competitors, which has been exported to Malaysia, Turkey, Mongolia, Vietnam, Cameroon, Kenya, Tanzania, South Africa and the Middle East, totally 100 countries and regions.

More information about DSMAC is available at <http://www.dscrusher.com/>.
