

A woman with dark hair, wearing a black short-sleeved button-down shirt and a blue plaid skirt, is leaning over a large touchscreen display. She is using her right hand to touch the screen, which is displaying a collage of various images including a peacock, a green apple, water droplets, and a cherry. The background shows a modern interior with a white sofa and a blue patterned pillow.

CHANGE THE
WAY YOU DO
BUSINESS

SENSYTOUCH®

REVOLUTIONIZE THE WAY USERS INTERACT WITH YOUR BRAND.

SensyTouch brings sleek design, stunning graphics, modern functionality and custom software to the multi-touch table.

We offer a complete package—state of the art hardware, and innovative multi-touch software. The end-to-end value of SensyTouch is comprehensive, from the hardware and technical support, to the engaging software applications.

Suda Sampath, President & CEO

If you can imagine it, we can design it.

Beyond the elegant, sleek design of SensyTouch, is the SensyTouch business core. Our team will work with you to incorporate the design elements, navigation, and unique functionality that maximize the capabilities of multi-touch technology. With deep experience in development and consultation, our specialists can deliver a proof of concept multi-touch application in just days.
