HR Technologies in the Cloud

Developing a better online HR system.

THIS IS WHO WE ARE

“We are not exaggerating when we state that AppliTrack has revolutionized the manner in which we deliver services as a Human Resources Department. Implementing the AppliTrack system has encouraged the staff to look at other manual processes and how technology can be used to increase efficiencies and save resources.”

Cindy Berck
Director of Human Resources

WE WORK IN THE CLOUD

When we need to find the right talent for our team we don't want to spend money and time on the process, we want to spend it on the people. That is why we have been hard at work to develop and implement a better cloud-based tool to effectively impact your HR process. We believe our role is to make hiring more efficient.

We love what we do and that won't change.

WE ARE INNOVATORS

Our approach to innovation and development is very simple. We will never compromise on ease of use, intuitiveness, and flexibility. We feel our work mirrors that as we continually build better solutions for your HR needs. It is the same as hiring, you won't sacrifice a core set of values and neither will we.

Let's hire the right talent, together.

AppliTrack. You won't find a more reliable, flexible, or robust hiring and employee management system. The AppliTrack Suite allows you to track applicants, assess their "fit" for a given job, and manage their employment file in a paperless environment. With an implementation that takes days to weeks, not months to years, AppliTrack allows you to focus on the people, and not the process.

Transform your HR department with AppliTrack.
