The new SR-Q (Single Row Quad) LED from Rigid Industries is a new multi-purpose light that uses the same compact aluminum design as the SR-M from Rigid. Just like the SR-M, the new SR-Q will mount in nearly any location. But more importantly, the lumen output of the new SR-Q is equal to the Dually/Dually D2 Series!

The new SR-Q is available in standard black or marine white coatings, with Specter or Hybrid optical systems. Limited lifetime warranty.
