

# Cloud Management | GET WISE

## ► Your Business

Cloud service providers are everywhere, and it's more challenging than ever to figure out exactly what you need to solve your business challenges. You don't just need a partner who understands technology. You need a partner who creates technology that makes your business run more efficiently.

## ► Smarter Cloud Management

MCF Technology Solutions is a full-service Web 2.0 PaaS provider and the largest Intuit QuickBase solution provider focused on solving complex business problems for many of the world's leading companies from the Fortune 50 to Main Street. MCF specializes in Enterprise-level solution design and development. We pride ourselves in having a "business first" philosophy and understanding the application of technology in business. Our objective is to help our customers maximize cloud computing tools to create efficient, low cost and highly effective Business Process Applications.

MCF Tech combines the latest PaaS and SaaS offerings, and techniques such as Agile Development, to quickly and effectively deliver tailored process applications and collaboration tools specifically for your business, at a fraction of the cost and speed of traditional IT solutions.

Our technical expertise is focused on today's leading development platforms, and our solution design staff understands the role of technology in business. Our team has leadership experience in Operations, Manufacturing, Distribution, Sales, Marketing, Logistics, Global Supply Chain, Real Estate and Project Management; combined with a deep IT competency and experienced AGILE Development.

We believe that the best solutions are born out of sound business understanding combined with the skilled application of technology. Why accept anything but exactly what you need from a software application? You shouldn't! Contact us to find out more.

## ► Get Started

Working with MCF Tech is easy. Your cloud solution is quicker, easier, and smarter when you partner with us. Connect with us now.
