

basic steam boiler operator training

Spirax Sarco, Inc invites you to attend this 5 day seminar

Date: April 29th - May 3rd (RSVP 04/19/2013)

Time: 8:00 AM - 5:00 PM

Instructor: Byron Nichols

Cost: \$1,525.00 Purchase order or payment required at the time of enrollment. PO, checks and credit cards are acceptable (Exam, Licensing, and Handbook included)

Location: Spirax Sarco, Inc.
1150 Northpoint Blvd
Blythewood, SC 29016

Who should attend?

This course is for Steam Plant Operations, Steam Plant Maintenance Personnel; Steam Plant Supervisors/Managers, Facility Operations/Maintenance Personnel, and anyone associated with energy conversion.

Overview

Steam Boiler Operation — Course BT-101 - is a 5-day course providing information on virtually all facets of steam boiler operation, maintenance, and troubleshooting. Common boiler auxiliaries and operating techniques are covered in detail. Safety and efficiency of operation are stressed. Information is included on modern boiler water treatment techniques, construction and repair methods, waste heat recovery, controls, fuels, and draft. The training manual includes the latest information on instrumentation and PLC controls systems, variable-frequency drives (VFD's), steam system optimization, reverse osmosis systems, low-NO_x burners, and boiler start-up and shown procedures.

On Friday, May 3, 2013, the American Society of Power Engineers (ASOPE) Region 4 will provide Entry Level 3rd class thru Chief Engineering Level testing for those who qualify.

Topics

- Boiler Theory Principles
- Boiler Construction and Design
- Steam System Controls
- Water Supply Systems and Controls
- Water Treatment Systems and Controls
- Fuel Systems and Controls
- Draft and Flue Gas Systems and Controls
- Instrumentation and Control Systems
- Boiler Operation and Maintenance
- Boiler System Optimization
