## H.J. BAKER'S TIGER-SUL PRODUCTS HAS COMPLETED CONSTRUCTION OF A NEW 1500 TON MOLTEN SULPHUR STORAGE TANK AT ATMORE, AL FACILITY

----

### H.J. Baker's Tiger-Sul Products Build New Tank to Meet Increased Sulphur Demand at Atmore, Alabama Facility

WESTPORT, CT USA – (March 26, 2013) – H.J. Baker's Tiger-Sul Products announced that to improve their handling and logistical position and to better serve their customers they have completed constructions on a new 1,500 ton molten sulphur storage tank at their facility in Atmore, Alabama.

Don Cherry, President of H.J. Baker's Fertilizer Group said: "As the sulphur market grows, we wanted to ensure we were not only able to meet current customer needs, but that we would be in the best possible position to meet the needs of our customers in the future. This new storage tank will allow us to do so. It is another example of how H.J. Baker delivers outstanding products and superior customer service."

The upgrade to the Atmore facility is in addition to H.J. Baker's recent announcement of Tiger-Sul Products (Canada) Co.'s purchase on its Irricana, Alberta, Canada sulphur plant. The Irricana plant will allow for increased production of sulphur bentonite fertilizer and the capability of sulphur forming in the future.
