Beyond Page 1

So far in 2012, Google has unleashed more algorithm changes than it did in 2010 and 2011 alone! SEOhaus is fully up to speed with any algorithm tweaks and acts FAST to implement any changes for our clients.

Google's robots crawl every website in existence and report back on information and structure. If the robot can't read your site well, it has no idea what to report back and most of all, where to place you!

There are of course things that these robots just can't read - such as how a site looks quality wise and how it's marketed. SEOhaus' experience is second to none, our team has over 50 years experience in the Marketing & Advertising field and will consult you on everything from the design of your site, to what happens after we get you to page 1 on Google.

Adwords or PPC (pay per click) is advertising within Google and it's networks.

This is split into two realms:

The Search Network

The Display Network

SEOhaus can manage your PPC (Adwords) campaign - very effectively.

Getting to page 1 with Adwords can be an intense bidding war, depending on the competition of the industry depends on just how much you pay for each click, and you want to make sure you're not paying too much - or too little!

SEOhaus has over a decade of experience getting our clients to page 1 across hundreds of products and services. We charge no set up fees and can have your account set up immediately.

Most other firms may also fail to give you a consultants approach. Here at SEOhaus we know that people need to be clicking through to a polished product and what that polished product should look like.

Our team of experts will consult on best practice methods to ensure you are getting the highest conversions possible from every click.

If you already have an Adwords account, that's fine too. We can analyze your current situation and most probably make it even better.

ScanCafe

Product

ScanCafe needed to increase clients to its website. An e-business, ScanCafe only does Internet transactions and relies on website traffic for revenue.

Problem

Low website traffic was preventing ScanCafe.com from reaching its business goals. In order to stay within budget, they needed to get creative and try new ways to market their website.

Objective

To increase traffic with website marketing and ultimately improve sales. More specifically, build awareness of the website through organic Search Engine Optimization. More traffic means more sales conversions online.

Strategy

SEOhaus used Search Engine Optimization to increase the traffic and revenue of ScanCafe.com. The website would be seen by anyone searching for ways to restore their old photographs.

Results

In two years, the SEO campaign helped the website traffic increase 800%. ScanCafe.com went from an average of 23,000 visitors per month to 185,000 per month and rising. Having first page search engine positioning for keywords like "Photo Scanning" enhances the business exponentially.

SEOhaus creates opportunity

You'll find no checklists here, each campaign delivers the same quality of work and includes every aspect of what we offer. The only difference, is how fast do you want to grow?
By utilizing different keyword options, we have created a simplified SEO model.

PLANS

Everything from Keyword Selection to initial website optimization, from a dedicated account manager who will report to you every two weeks to niche specific link placement - it's in every plan, right here.
