

CLASSIC
WINE STORAGE
& SERVICES
PRIVATE COLLECTORS

**Welcome to Classic Wine Storage
& Services, where your wine is our
business.**

Classic is a wine storage company that focuses on every aspect of storing clients' collections and providing an array of complementary wine services.

With over 34,000 square feet of storage across the DFW Metroplex, Classic is the largest self-storage wine company in Texas. We serve our private collector clients across the country from our facilities in Southlake, Dallas and Fort Worth, providing storage, moving services, shipping and delivery, inventory management, insurance and private events.

Fine wine, like fine art, is meant to be treasured, protected and enjoyed.

Classic is here to provide the ideal environment --- timeless storage protocol that has been perfected in wine caves, which we have replicated in each facility --- for your bottles to age gracefully and to be ready for that moment when it's time to uncork and celebrate.

And, with three convenient locations providing 365-day-a-year access, your wine is always just around the corner making Classic a convenient alternative or addition to in-home storage.

STORAGE

Your palate and your collection are unique. Classic offers customized storage, including racks, cases and walk-in lockers at any of our locations.

We're here to help you select the right size and configuration for your needs.

Contact Classic for more information about storage offerings.

Home Storage Consultation: Many clients keep the bulk of their wine collection at a Classic facility while maintaining a smaller supply at home. Classic can help guide you in your home storage options.

Case Storage: Classic offers cost-effective case storage lockers to accommodate collections ranging from 12 cases to over 100.

Rack Storage: Rack storage allows quick, easy access to your wine without the hassle of searching through boxes. You can also transfer wine from case to rack storage as needed. Rack lockers are available in various size increments for a custom storage solution at Classic's facilities.

Walk-in Storage: Depending on the size of your collection, a walk-in storage locker could provide the utmost in convenience. Walk-in storage lockers are available in various size increments in each of our facilities.

INVENTORY MANAGEMENT

Whether your collection is at home or in a Classic facility, it is important to understand what you own, from noting optimal drink-by dates to knowing its financial value. Classic offers turnkey, ongoing inventory services using industry-leading software so you can truly manage your collection efficiently.

The inventory management service comprises a complete evaluation of your collection, including an inspection of bottles for any label or cork issues. A detailed assessment of your collection is available to you online or from a mobile device. And, for those interested, we offer barcoding for your ultimate convenience. Please contact Classic for more information about inventory management services.

MOVING/RELOCATION

Whether you're moving down the street or across the country, Classic is ready to care for your precious cargo. A complete cadre of moving services is available for collections of any size: packing and unpacking; refrigerated, TABC-permitted transportation; short and long term storage solutions; and inventory services to ensure your collection arrives safely at the new destination.

For moves outside of Texas, Classic can help coordinate refrigerated transportation through our network of respected national carriers.

Each of Classic's moving services is available individually or as a package. Please contact us to discuss the specifics of your move and to talk about your special requirements.

RECEIVING

Tired of rearranging your entire schedule to wait for your wine delivery?

Worried about missing a delivery, resulting in wine that rides around for days in a hot truck? Have your shipment sent to Classic instead. Once your wine is received, we will notify you.

Then, Classic can place your wine in your existing personal locker.

Classic can also accept pallets in the event you have a large shipment or are consolidating shipments with other clients.

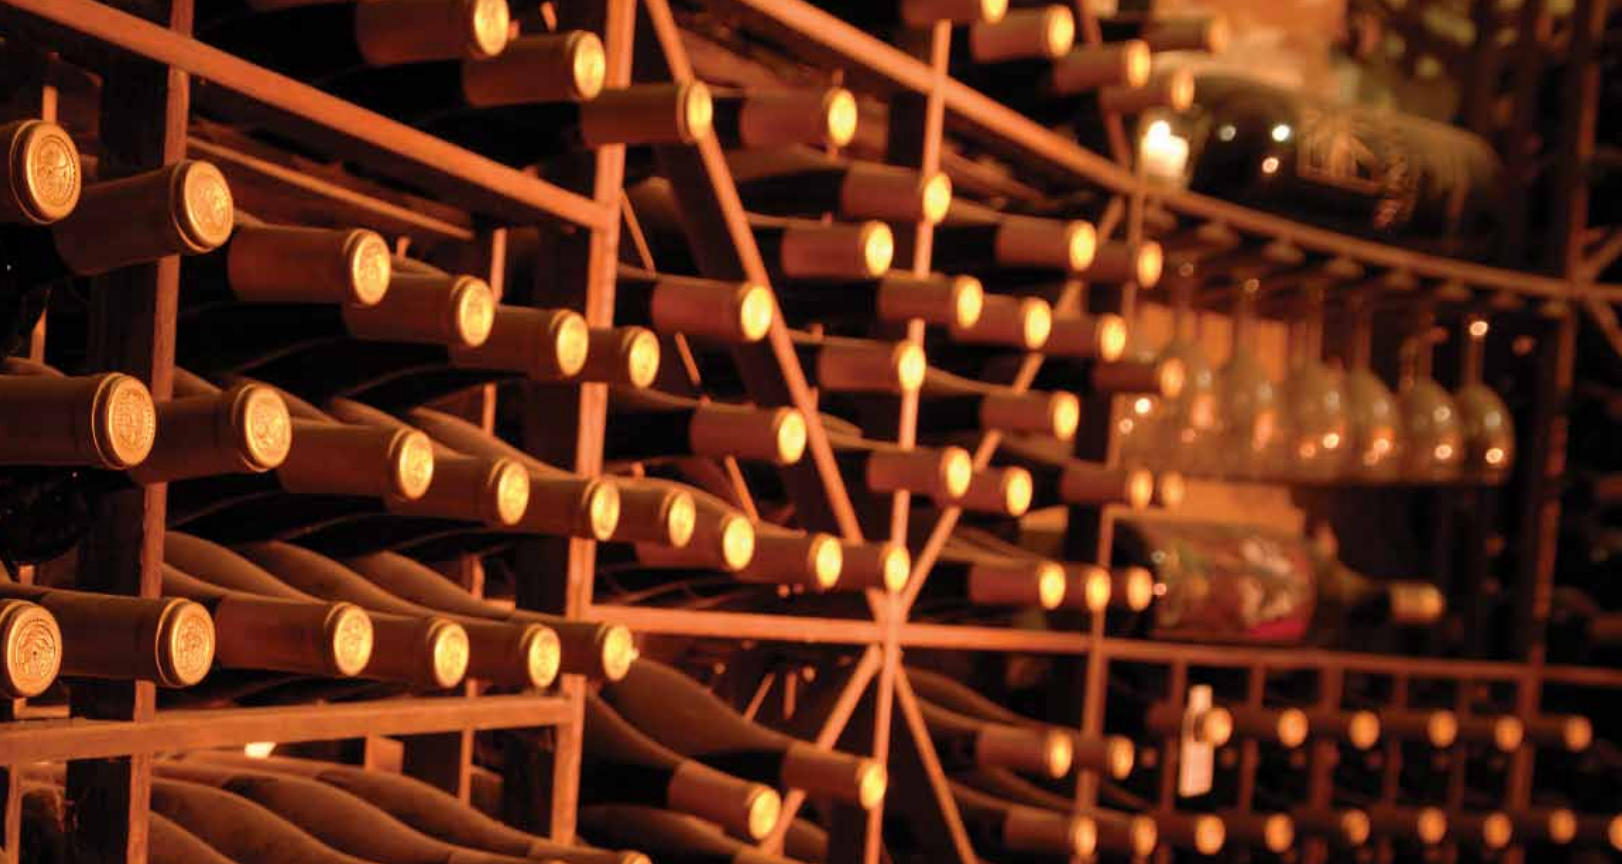

PICK-UP AND DELIVERY

Classic's refrigerated, TABC-permitted vehicles are standing by to pick up and deliver your wine to your designated destination.

For storage clients, requesting pick-up and delivery is as simple as submitting a form online.

Please contact Classic for information regarding delivery rates.

INSURANCE

Your existing policy may not be designed to cover your collection or off-site storage. Classic can help by connecting you with insurance customized specifically for your valuable collection.

This specialized insurance offering is available exclusively to Classic clients through our relationship with the independent insurance agency Lane McVicker, LLC.

Please contact the dedicated servicing agent at Lane McVicker, LLC, Krista Tankersley.

Phone: 214.987.2000

E-mail: krista.tankersley@lanemcvicker.com

EVENTS

Each of Classic's locations features an event room where clients can sit back and relax with a bottle of wine.

Inside you'll find plenty of seating as well as Riedel stemware and decanters to meet your needs. You can surf online with our complimentary Wi-Fi or watch your favorite team playing on one of the large screen TVs.

This room is also available to reserve for your special occasion, and we host a number of wine-focused events for you to enjoy.

To reserve your special event date, please contact Classic.

CONTACT

Your wine is our business.
