

***Fast, Easy, Affordable - OSHA Compliance Online Education*****OSHA Medical Staff Training:**

Quickly and easily meet OSHA medical staff new hire and annual training requirements with our new two-hour online training program. Topics cover bloodborne pathogens, ergonomics and disaster preparedness – 35 topics in total. Employees can quickly access the 30-minute sessions anywhere and anytime they have an internet connection. Come and go as often as you like to the sessions that cover everything you need for OSHA compliance.

Sessions follow our unique bite-sized learning model making them short and to the point. You can also modify them to fit your unique organization requirements. Say you do not have radiology in your organization ... with just a click of a button that section is gone!

**Current Courses Include:**

- Recognize exposure control plans and how they can eliminate the risks of being exposed to bloodborne pathogens.
- Understand how to respond to disasters to ensure the safety of patients and staff.
- List the most common workplace hazards and how to address them in a safe, calm manner.
- Identify healthy employee behaviors to prevent or minimize workplace-related injuries.

**Why BridgeFront Education:**

Whether you are training new hires, conducting initial staff training or addressing refresher requirements, BridgeFront's OSHA medical staff training is a valued resource. All our education is authored by experts in their field and is legally reviewed. Sessions are easy to assign, track, and meet all audit criteria.

**About BridgeFront:**

Effective, customizable and budget-friendly; BridgeFront helps healthcare, government and businesses provide the highest quality of staff education. You have the flexibility to take any online course as-is or modify it, and even build your own courses. For over ten years, BridgeFront has provided engaging online education on compliance, revenue cycle, patient and workplace communications, clinical, leadership and now ICD-10.

**Features & Benefits:**

**Comprehensive**—Addresses 35 topics required by OSHA in the four 30-minute online sessions.

**Easy to Understand**—Key concepts presented in a variety of ways, such as audio, and on multiple occasions to improve comprehension.

**Available Online 24/7**—Web-based courses can be taken on any internet-connected computer anytime, anywhere.

**Virtual Bookmark & Notes**—Students can take notes online and bookmark their place in the course to continue at a later time, if needed.

**Certificates**—Printable "Certificates of Mastery" are available once the course and test have been passed.

**Customizable**—Courses can be easily edited to include your organization's information, such as internal OSHA policies and procedures.

**Testing**—Review questions and post-tests make it easy to document employee education.

**Proficiency**—Four online sessions address all mandatory topics and can be used for onboarding employees or as refresher training.

"BridgeFront education relieved me of many responsibilities...it has just made it easy to meet my compliance obligations. To modify and create courses was [also] one of the selling points that BridgeFront offered me. I looked at a number of programs. None of them allowed me to go in and make changes."
