

automated currency manager
self-service cash handling

Fully managed by

mzero°

zero boundaries. infinite possibilities.

meridian's security, development
and performance management
software

The Automated Currency Manager is a self-service cash management system designed specifically to maintain control, and more effectively manage cash flow between employee and customer activity. The ACM will streamline the cash management process and increase profitability using MEI and meridian's advanced technology.

Benefits and ROI:

Lower cash handling costs

- Eliminates the cash till
- Reduces cash float
- Optimizes cash-in-transit costs

Increased Security

- Minimizes cash movement throughout store operations
- Real time cash validation and accountability
- Lockable cash modules

Simplicity

- Industry best valid street-grade note acceptance, including those that are wet, crinkled or torn.

Serviceability

- Reliable service and support

Improved machine up-time

Cash back functionality

Enhanced consumer experience

Expected ROI = 12 months or less
