

# WATER **CONNECTS** US ALL.

Each human being is  
a literal vessel,  
holding the magic of  
water that makes  
life possible.

We have more in  
common than  
we realize.

Introducing the  
**KOR ONE Hydration Vessel**  
in Chrome

## THE ONE THAT STARTED IT ALL

Since its debut in 2008, the **KOR ONE Hydration Vessel** has placed water on a pedestal while blending arresting design and innovation into a simple reusable bottle. The ONE makes water the "hero" of our everyday, and in the process makes you a co-conspirator to good health — both for yourself and the planet. Designed in partnership with RKS Design, the ONE is shaped in an iconic, elliptical obelisk and features a hands-free cap and many thoughtful and personal touches.

In celebration of our fifth anniversary, KOR is thrilled to release the KOR ONE in a special edition Chrome finish.
