WEB SOLUTIONS COMPANY ANNOUNCES WEBSITE FOR CUSTOM HATS IN BRYAN/COLLEGE STATION

Catalena Hatters has been producing quality custom hats for over thirty years. Their new website, created by AgniTEK, features online shopping for their products and services.

College Station, TX, July 22, 2013– AgniTEK, a nationally-recognized company for their expertise in helping organizations leverage technology to improve businesses, is pleased to announce the launch of a website for Catalena Hatters at <http://www.catalenahats.com>. The new website was designed and created by AgniTEK associates and is live on the web.

Catalena Hatters creates the best custom handmade felt hats in the world. They have been producing quality custom hats for over thirty years. Owned and operated by Sammy and Carolyn Catalena of Bryan, Texas, the family business boasts two sons, Scott and Travis Catalena. Sammy is also a rancher and a PRCA Stock Contractor, which helps him understand the needs of his customers. Catalena Hatters makes their hats the old fashioned way: by hand, one at a time. Their standards are high and their prices are reasonable so that anyone can who appreciates a good quality custom hat can afford one. Catalena Hatters makes it possible to mail order your custom hat from all over the world. In over thirty years of operation, they have sent hats to nearly every continent in the world. Catalena Hatters is also one of the few hat restoration professionals in the world. They can restore almost any hat to make it like new again. To learn more about the Catalena Hatters, visit their website today.

The Catalena Hatters website features an online shopping cart so that customers can shop their products and services and order online. The website also provides descriptions and images of all of the different types of hats they offer. Finally, the website offers hat size, shape, and color charts so that the

customer can choose the perfect custom hat for themselves. All of these features were made possible by AgniTEK and their associates.
