This sophisticated device is now available for the customers of the company with all the service plans offered by Elite Security Services in North Dakota. The company has been providing the finest range of home protection systems in the state since last one year. Their low cost and high efficiency service have made them one of the most trusted security service providers in the country with a strong presence in all states. The inclusion of this new device has been welcomed by homeowners in the state.

The reliable [North Dakota home security systems](#) provided by Elite Security Services offers some of the most advanced home protection devices. Burglar alarms are extremely critical components of any security system. These alarms should be loud enough because the purpose is to let the neighborhood know about the emergency situation. Loud burglar alarms can be excellent deterrents for burglars. The burglar alarm introduced by Elite Security Services would be a valuable addition to their service plans because it has an extremely high pitch. Introducing the device in North Dakota, the owner of the company Mr. Paul Shakuri said, "Burglar alarms are only effective when they are loud. This one is amongst the best in the present market and would be an asset for your home protection".

Elite Security Services presently offers three security plans in North Dakota. Their basic security plan is one of the most sold plans in the [North Dakota home security systems](#) industry. For an affordable monthly rental of \$35.99, this package offers a plethora of sophisticated surveillance devices to offer leak proof protection to users. The two other packages have extremely high end features and are available for a slightly higher rental.

About the Company: Elite Security Services is a rapidly growing company in the home security industry. They offer highly efficient and economical home security solutions in America and Canada.
