

BluePRO™ Bluetooth Interface for Mobile Cash Drawer Solutions

Bluetooth-Enabled Cash Drawers

APG Cash Drawer, LLC introduces the BluePRO™ interface -- the 1st ever Bluetooth cash drawer interface. The BluePRO™ interface enables a printer-kick cash drawer to pair with a mobile device. Whether operating in a Thin or Mobile (Thinbility) environment, the BluePRO™ interface allows retailers to wirelessly synchronize and create a one to one relationship between the cash drawer and tablet. The BluePRO™ interface achieves proximity when the mobile device comes within three feet of the drawer.

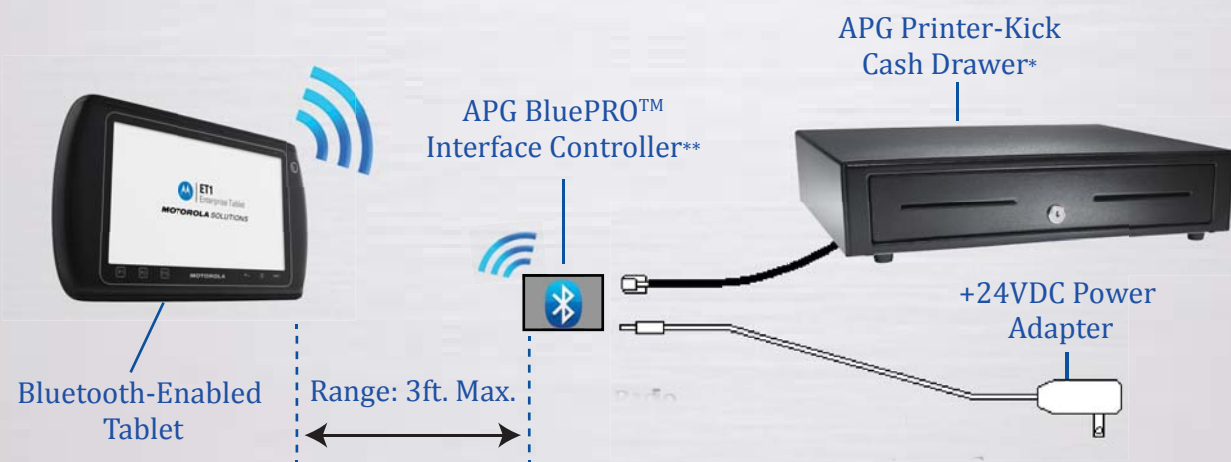

Place it.
Plug it.
Pair it.

Key features of the Model 510 BluePRO™ Interface:

- Wirelessly synchronizes a mobile device and cash drawer within a personal area network
- Accepts connection from a printer-kick cash drawer so it can be paired with a mobile device
- Transactional pairing is achieved when the tablet is placed within three feet of the Bluetooth controller
- APG will provide a sample SDK compatible with iOS and Android OS to assist in application development
- The cash drawer interface requires the use of a power adapter which is included

* Compatible with all APG model 320 MultiPRO interface cash drawers (requires cable CD005A)

** Consult with your software provider to confirm compatibility
