

The Social Supremacy Blueprint: Review Reveals Greg Greenway's Social Circle Training Course

SUMMARY: *PUABooks.net* releases a review of *The Social Supremacy Blueprint* a newly launched training course that promises to reveal the secrets to designing one's ultimate lifestyle, infiltrating elite social circles, and positioning oneself to meet and date supermodels and actresses.

"Greg Greenway's new Social Supremacy Blueprint has quickly become the 'go to guide' for men looking to dramatically improve their social lives, and live the so-called 'rock star lifestyle'," reports PUABooks.net's Clint Johnson. "Although our website's focus is more on improving one's dating life and pick up skills, we thought Greenway's program would be of interest to our readers, so we decided to take a look at the course and publish an investigative review."

Johnson's Social Supremacy Blueprint review explains that the course is designed to provide Greenway's students with a comprehensive guide to "engineering" their ideal social lifestyles. For many this dream lifestyle means gaining access to elite social functions, having amazing friends, making powerful business contacts and of course getting to date stunning women.

"One of the things that a lot of guys don't understand about success with women, is that if you have a great social circle, you can be introduced to amazing women on a regular basis, and have them actually be the ones perusing you," says Johnson. "So many guys make things so much harder on themselves by thinking they need to always be so proactive about going out to 'pick up women'. In Greenway's course he has a whole module on what he calls 'Social Circle Seduction', it's a natural way to meet women, and get them actually chasing you rather than the other way around."

While Johnson's review takes an in-depth look at how the The Social Supremacy Blueprint can be used to improve one's dating life, the course itself provides training on a much wider array of social issues.

"Nearly everyone has some aspect of their social life that could stand improvement, but many question whether this is really possible, if for example they feel that they are naturally introverted," says Johnson. "One of the most helpful parts of the course, that we discussed in our review is the module on social intelligence. Greenway's explanation of how interpret and handle social situations, and engineer 'the cool factor' in one's life will undoubtedly prove powerful for his students regardless of their previous social experience."
